MacRory Tip to Clip

Have An Escape Plan

If your Mac freezes, escalate your escape in small, gentle steps:

1. "Command Period" (⌘+.) will solve some freezes
2. A "force quit" (⌘+Option+Escape) may be needed for others
3. A "soft boot" uses ⌘+Power+Control (or Shift for some Macs)
4. Press your Mac's physical "acupuncture point" reset button
5. Unplug the machine and wait 60 seconds
