About the Sculptor

Russel Peltzer created his first piece of sculptor at the age of seven. The same year he fell in love with the creative process and the beauty of the human form.

While in Mexico in 1982 he had the great fortune to meet and befriend the internationally famous Mexican sculptor Gabriel Ponzanelli. Russel would live in Gabriel's studio and for months on end watching the famous master at work. For more than twenty years he learned from Gabriel Ponzanelli until one day the master told Russel that he would not teach him any longer because he had too much talent of his own and that now the clay would teach him.

These bronze sculptures represent years of work, countless hours of study and the great love that a master sculptor had for his favorite student.

The sculptures have been art appraised from \$18,000 to \$24,000. Each sculpture is a part of a new limited edition. For a limited time we are offering these sculptures direct to the public at a discounted price of \$8,950.00
