**The Fanno
Creek Clinic**

is enrolling volunteers for a medical
research study assessing the safety
and effectiveness of a new treatment
to reduce HIV-associated abdominal
fat accumulation.

Individuals who are 18 to 65 years old and have
documented HIV infection are invited to volunteer.
You must be taking anti-retroviral medications for at
least 8 weeks prior to entering this study and have
evidence of excess abdominal fat accumulation.

For more information,
please contact **Lisa Zeigler**,
Fanno Creek Clinic
Research Study Coordinator
at **(503) 452-0915**, ext. 30.
