

**Do You Have *HIV* and Experience
Pain, Numbness, Tingling,
or Burning Sensation
in your *Legs, Hands or Feet*?**

Researchers are conducting a study of an investigational medication for the treatment of neuropathic pain associated with HIV neuropathy. Neuropathic pain (nerve pain) is a common complication of HIV infection and its therapy.

We are seeking volunteers for a clinical research study to evaluate the safety and efficacy of an investigational medication for the treatment of nerve pain associated with HIV neuropathy.

To qualify for participation you must:

- Be at least 18 years old
- Have been diagnosed with HIV-1 infection
- Have experienced this pain associated with HIV for at least 3 months

As a qualified participant you will receive, at no cost:

- Study-related examinations (physical and neurological)
- Study-related medication
