# SmartLipo™

laser body sculpting

**melt fat . tighten skin . recover fast**

Smartlipo™ is the first and only laser liposuction system to offer a revolutionary and minimally invasive procedure for the removal of fat.

Smartlipo™ is done in the office without general anesthesia and lets you return to work in just 2 days. In addition to removing fat, the laser tightens and retracts skin over the treated area and may reduce the appearance of cellulite - something that traditional liposuction cannot do. And did we mention that it's significantly less expensive? Call for complimentary consultation with our physician today!
