"The choice is clear. Jeff Merkley has been a hero in the fight for full equality. Unlike Gordon Smith, Jeff Merkley supports marriage equality and opposes the federal marriage amendment. We must elect Jeff Merkley to the U.S. Senate."

—Jon Hoadley,

EXECUTIVE DIRECTOR, NATIONAL STONEWALL DEMOCRATS

This November, we have a chance to send a true champion of equal rights to Washington, DC.

As Speaker of the Oregon House, **Jeff Merkley** led the fight to pass Oregon's historic Domestic Partnership Law.

And **Jeff Merkley** fought right-wing extremists to drive through a non-discrimination law and protect the rights of all Oregonians.

The LGBT community across the nation can count on JEFF MERKLEY to be a leader in the US Senate for:

- Supporting a fully inclusive Federal Employment Non Discrimination Act, banning discrimination on the basis of sexual orientation and gender identity.
- Supporting full marriage equality
- Supporting expansion of federal hate crime laws to include protections for victims of crimes based upon their sexual orientation and gender identity.
- Supporting comprehensive funding and programs for the prevention and access to life saving treatment of HIV/AIDS.
