CONSTIPATION FROM PRESCRIPTION PAIN MEDICATION?

YOU MAY WANT TO KNOW ABOUT THIS.

Prescriptions such as Vicodin®, Percocet®, and OxyContin® often cause constipation and even bloating. If your medication is not for cancer-related pain and you're experiencing this kind of bowel dysfunction, you may want to know about a clinical research study for bowel dysfunction caused by pain medications. Participation provides close monitoring and comprehensive study-related care at no cost to you.

For more information, contact:

Lisa Zeigler
Fanno Creek Clinic
2400 SW Vermont St., Portland OR
503-290-0730 (direct)
