

It's not a black thing.  
It's not a white thing.  
It's not a gay thing.  
It's not a straight thing.

Testing for HIV is  
everyone's thing.

## Introducing the first in-home oral HIV test

- FDA approved
- Results in 20 minutes
- Same test used by Healthcare Professionals
- Oral swab, no blood required
- 24/7 call center support

**Knowing is the best thing.™**

Available at your local retailer or [OraQuick.com](http://OraQuick.com)

• A positive result with this test does not mean that you are definitely infected with HIV, but rather that additional testing should be done in a medical setting. • A negative result with this test does not mean that you are definitely not infected with HIV, particularly when exposure may have been within the previous 3 months. • If your test is negative and you engage in activities that put you at risk for HIV on a regular basis, you should test regularly. • This product should not be used to make decisions on behavior that may put you at increased risk for HIV.
