Upper Juniors Are
Champs In V. Ball

The volley ball championship goes to the Upper Juniors. They are champs by virtue of winning the most games.

Inclement weather has not interfered in the least with the games as the gym was reported to have been heated sufficiently to cause humidity to flow volumetrically, but what beats us is that there were four teams in the field including the three classes, namely: Sophomores, lower Juniors, upper Juniors and Seniors. The girls are looking forward to baseball which will start in a very short time. The competition promises to be close as was volley ball. The managers of volley ball and baseball are Alice Anderson and Eleanor Combe.

Two Periods Here Again

(Continued from Page 1)

They will forget this time to give us a two period.
The teacher picks up her book and starts off with today's assignment as if everything was all right. Of course, some one makes her about two periods. She merely says, "Not today." The next day everyone thinks the ordeal is over for the week, but lo and behold there is a stack of paper and that's not all tenth of the hardest questions and that's not all other than answers that we do not know.
