

**SPORTS**

Ashland Grizzlies went down to a defeat by the Klamath Pelicans. Fighting firmly in the dust of the dry field, the boys rolled up a bulwark of twelve points against the Klamath gridsters. The defense was not strong enough, however, and the Pelicans drove through for a score in each period.

Klamath made the first score, then, with Meyers and Hall as protection, Gornell went over for the Grizzlies first score. Ashland failed to convert. Klamath came back undaunted and the score at the half was 14, to 6, in favor of Klamath. At the second half, the Pelicans again made a score but they failed to convert. Ashland made a tenacious stand and did not let go until the ball was over the goal. The score at end of the third quarter was 29 to 12, in favor of Klamath. In the last quarter, Klamath gained two points on a safety, thus making the score 22 to 12 in favor of Klamath.

**Ashland-Crescent Game Final Score 12-7 Favor Ashland**

Ashland Grizzlies made their fourth consecutive win in non-conference games Saturday, October 17, when they defeated the Del Norte Pirates 12 to 7.

The Lithia City gridsters held the much praised fishermen down to one score, that being gained in the fourth quarter on an end run of forty yards for a touchdown. The point was converted.

Ashland scored in the first quarter when Gornell intercepted a Crescent pass and ran sixty yards in a broken field for a touchdown. The Grizzlies' second came in the third quarter. The Pirates made a desperate rally but Dunham plunged over for a score. The Pirates knocked down the try for point.

The score at the final gun was Ashland, 12 and Crescent City, 7. Ashland High gridsters defeated Dunsmuir on October 3 with a score of 24 to 0. The game was played on the Lithian field. This was Ashland's third consecutive win in pre-conference games.

**FOOTBALL FINDINGS**

Just too DARLING for words! Green and Head — They say there's competition here. Looks like they'd cooperate. Greenhead.

Gearhart — Where are the ways of yesteryear?

Howell — With his elevation, his galloping style of locomotion and his crane-like structure, keeps them guessing.

Darling — Thunder sometimes gives us a good storm.

Parks — A hammerhead when it comes to knocking down the pigskin carriers.

Lennox, on the other end, is improving, but he is still a little afraid of doing the wrong thing at the right time. A good trait, but don't let it get away from you, Keith.

One of the things that must

help Shorty make so much yardage is his ability to completely relax before each play. Did you ever notice how he steals a few minutes rest after being tackled?

Ekridge, the little 133 pound guard, has caused more than one observer to scratch his head, by his ability to tear through the line and smear opponents Pot Plays.

Sieloff, the well padded center, has been living up to his job of center and playing a good game for his 1st year of high school football.

We miss our peppy yell leader, but what a thrill we get when he recovers a fumble and goes driving down the field, amid a cloud of dust and a chorus of cheers.

Mabbot, at "wing half" will be expected to turn in a good record next Saturday.

Dunham, playing "Full" is going to give an exhibition of "backing up the line", which will be hard to equal.

Parks, stobby little guard and one of the fastest players on the team, has surely shown his opponents how to tackle and run interference. Keep it up Henry!

Sneed, "The Flying Swede" is playing "outside" tackle and doing a good job of it too, as many a poor fellow playing opposite has learned to his sorrow. Well, "Experience is a great teacher", keep up the good work "Oley".

Sieloff, Center, is plenty short and as easy to go over as to go around. But just to go over him? It just isn't being done this year, that's all.

Hall, "What a Man", is the sturdy little lad who plays next to Seloff. When these two make up their mind to do things, watch out!

Greene too is a tough boy. He's shifty and as fast as you can find. When he hits he hits hard.

Darling and Johnson are slow to "pick the fight" — all they need is courage to go right in and start the "controversy".

Although Mabbot received a black eye and a few scratches he has been working still harder to make up for the few losses of skin that he had to dedicate the new Modoc field.

**BOYS' COUNCIL MAKE GIRLS OFFER**

Girls can now have hobby groups, radio, painting clubs, and so forth, as well as boys. The Boys Council is willing to give any girls, who would like to form such a group the use of their meeting place and help them get organized.

**STUDENT ILL**

We are very sorry to learn of the illness of our classmate Rosa Franco. She has been ill for several weeks. It is doubtful whether she will be able to graduate this year with her class. She was outstanding in school activities, being vice-president of the Junior class, and also taking an active part in Band, Orchestra, and Girls League.

**ADVERTISING**

Sir Thomas Lipton, the famed English yachtsman, was a firm believer in advertising. His wonderful business is proof of that fact. While we are not all Sir Thomas's we all can advertise.

On of the prominent virtues of the first issue was the advertisements. The business staff of Rogue News greatly appreciates the advertising of the Ashland business houses and individuals in the high school paper.

The paper also wishes to mention the fact that many firms have taken year adds. This is a great benefit to us, and to the firms themselves.

—Business Manager, G. F. S.

**EXCHANGE**

Enthusiastic barnyard golf champions are showing great form in the initial tryouts. The correct way to count points in horseshoes is a ringer, three, leaner, one, and the closest shoe within six inches counts one. The way the girls count them as a ringer is an impossibility, a leaner a miracle, and a shoe thrown within sixteen yards of the peg, is an accident.
