TEACHERS WORK, PLAY DURING VACATION

Asked what they did during the summer months, some of the teachers couldn't even remember what their activities were.

Mr. Herb Lewis went to Portland, saw a ball game, and mashed his thumb with a hammer.

Mrs. Mary Christlieb bought some furniture and is helping her husband build a cabin at Fish Lake.

A two weeks tour of active duty with the Naval Reserves was the highlight of L. P. Johnson's summer. He also went to Newport to fish.

Mrs. Laura Grubbs took a long trip and one of the points of interest she saw was Carlsbad Caverns. She saw a movie made, "Fair Winds From Java."

Another traveler was Giles Green who attended the National Education Association Convention in Detroit. While there he visited the Ford automobile plant.

Mr. Gene Allison fixed his car, hooked the largest fish caught this summer at Diamond Lake and went to the hard top races.

Mrs. Gladys Banks studied at SOC where she took two music courses.

Mel Johnson and Glen Crisp should be thanked for the bright and shining appearance of our school. They spent the summer painting.

Reno was the destination of Mr. Phil Lindley when he took his vacation this year.

Mr. Parks went fishing and it is rumored that he caught a few.

Company visited Mrs. Biegel during the summer. She also traveled to San Francisco and the coast.

Mr. Windt just took it easy. He took "odds and ends of trips" and just worked around home.

PEP CLUB

Marching and yelling their heads off, but faithful are the Pepsters who are seen at the games backing the Grizzlies. The girls haven't been noticed too much at the first few games because they haven't received their uniforms yet.

Adviser is Mrs. Ione Taylor; president, Pauline Davis; vice president, Collen Bond; secretary, Jackie Owings; Constitution chairman, Kathy Clark.

Grizzly Gossip . . .

Notice to Mr. Crisp: Many students who are not in driver's training class are wondering why that class was sent to the Police Station the first week of school. Was it to see about learner's permits only?

Miss Hershey's bookkeeping class has been learning about debits, credits, liabilities, and assets. Jerry Ward says his proprietorship is made up of all liabilities and no assets.

Sophomores were very unhappy because they had to come in through the back door the first week of school. They should have been here two years ago. Sophomores had to shine the senior's shoes and sing "Loyalty" whenever they were told to. Judy Briggs was a lucky one who got to roll the length of the Central Hall. Others were permitted to carry upperclassmen's books all day. Usually this included four or five extra library books just to "develop muscles."

In Mrs. Lewis' second period Social Econ. class there are five Pats. He wonders how they all got in one class. Don't feel bad, Mr. Lewis, there could have been even more.

If you see a girl earnestly talking to herself, don't think she is crazy — she is only taking shorthand. Mumbling to yourself is the only way that you can understand those little hen scratches.

Girls P. E. classes have been wondering whether Miss George and Mr. Allison signed the wrong contracts. Miss George's girls feel almost ready to go out for football practice some night. From all the push-ups and curl-ups they have been doing lately, they should make the J.V. squad anyhow.

If you happen to see a little girl with pink hair walking around the halls of A.H.S., don't be alarmed. What happened Collette? Didn't the peroxide work?
