#### Nongraded English To Be Instituted

To individualize the subject matter of the English course as much as possible is the purpose of the new, revised English system which will be instituted at Ashland High next fall.

The new system will be a modification of the non-graded school which exists in some parts of the country. Each student will he assigned to an English class without regard to his respective grade in school. The teachers will attempt to give atudents the level of work they are capable of handling by using a com-bination of large and small group nstruction

One advantage to this non-graded English program is the fact that repetition of material already covered such as some points of grammer will be elimi-

During the school year an ex-periment in the nongraded approach was carried on through the ungraded English class. The fifteen students in this class felt that instruction has been more individualized than in traditional English classes.

Mrs. Zwick, the teacher of this class, said "This line of approach to English has certainly been more exciting for me and will, I hope, be equally exciting for both state atudents and teachers next year. mer.
