Emily Moore Tells Of European Tour

About three weeks ago, Emily Moore, a sophomore at Ashland Senior High School, took a three-week trip to Europe with her parents and her brother. Some of the most interesting places she and her family visited were Glasgow, Scotland; London, England; and Paris, France.

times while traveling by subway they were unable to find out where they were.

From London, Emily crossed the English channel to spend a day in Paris, France. One of her favorite experiences in France was seeing the Eiffel Tower.

High Prices

Emily remarked on the high prices found in Paris. "It cost seven dollars for the four of us to take the elevator to the top of the Eiffel Tower. We were then charged to put our coats in a safe place and again charged to get the coats back."

Emily began her 1966 school year just last week after missing a full six-weeks. She stated that she is glad to return to the United States. She is not so anxious, however, to begin catching up in school.

Travel in U.S.

The family traveled across the United States by various means and met in New York City. Emily and her family then took an airplane across the Atlantic Ocean to Glasgow, Scotland. After spending four or five interesting days of sightseeing and exploring the wonders of Glasgow they went on to London by a rented car. In both England and Scotland Emily saw several ancient castles, including one which was where the legendary Knights of the Roundtable met with King Arthur in London. Emily remarked that they saw where the royal crown jewels were kept.

Subways

Emily and her family found the subway system in London to be very confusing. Many

COMMITTEE CHOOSES NEW SEMINAR GROUP

Twenty-three seniors were recently selected to participate in this year's seminar program.

This year's seminar members were selected by a committee of 15 faculty members. Students were chosen on the basis of what they can contribute to the group and how much they can benefit from it. This year membership was limited to seniors.

These members will meet once a week to read and discuss literature. Among the books they will read are DEATH OF A SALESMAN, by Miller, ALL THE KING'S MEN, by Warren, and LIGHT IN AUGUST, by Faulkner.

Colwell, Williamson Receive Awards

Two Ashland High School students have been awarded for outstanding contributions to the school during the first six-weeks period. Ann Colwell, senior at AHS, has been selected as the Girl of the Term by the

Business and Professional Women. Also heading the month's activities was Joey Williamson's selection as Boy of the Month.

Many Activities

Ann is the first vice-president of the student body, head of the Interclub Council, vice-president of the Quill and Scroll and also past secretary of the Ski club. She is a member of the Rogue Annual staff and also of Rogue News staff. During her junior year she was active in Grizzettes.

After graduation Ann is planning to attend Oregon State University and later go into the field of retail merchandising.

Qualifications for the Girl of the Term are leadership, scholarship, character, and personality. Six girls were chosen by the faculty and will be honored in alphabetical order.

Joey Williamson, well known athlete at AHS, has been voted as Boy of the Month for his participation in football.

Joey participates not only in football, but also basketball and baseball. He is also Letterman's club president.

During the summer he was active in American Legion baseball and summer basketball.

He also attended Boys' State, held on the Oregon State University campus, and the Fellowship of Christian Athletes at Southern Oregon College.

Joey is the first of a group of active boys who will be honored this year. The Boy of the Month committee headed by Craig Kortbase makes the choice each six-weeks. Boys contributing most to the school are selected.
