PICTURES OF ALASKA.

The finest example of exploitation by means of the panorama is exemplified in the exhibit of the territory at Alaska-Yukon-Pacific Exposition. The enormous painting has been executed under direction of the United States Government and is the work of Messrs. Gates and Morange of New York. The scenes and local coloring occupied more than a year in gathering.

The panorama is 150 by 40 feet in dimensions, and its perspective and general coloring are startling perfect. It shows mining operations being conducted in all branches, and the scenes of hydraulic and placer gold workings, fishing, lumbering, hunting and agriculture and every instructive feature of the territory are brought close at hand.

The fore ground leading to the edge of the painting is made up of real earth and rocks, and where this gives way to the canvas, a diminutive miner's cabin is built. The lighting effects are skillfully arranged, and fourteen cluster arc lights show the panorama to the best advantage. These are controlled by mechanism so arranged, that the four effects of dawn, noon, sunset and night are produced. Each of these periods are of five minutes duration, and the passing of early morn into mid-day, then to twilight and this followed by the wondrous coloring of far northern mid-night, is beautiful and charming in the extreme.

Johnson Decline Invitation.

Governor Benson received

a letter from Governor Johnson of Minnesota, declining the invitation of the Governor of Oregon to visit Salem on his way to or from the Seattle Exposition. Governor Johnson says that he will come West with his staff and naturally, will want to return with them but hopes to visit at Salem and Portland at some future time.

BUILD NEW HALL

Junction City Odd Fellows Have Let The Contract.

The contract for the new brick building to be erected at Junction by the Odd Fellows lodge was let Saturday. The complete bids submitted were as follows: Hughes, Dennison & McLaren Salem, \$11,277.00; W. O. Heckart, Eugene, \$12,099; W. M. Wood, Philomath, \$13,500. The Salem firm having submitted the lowest bid, the contract was awarded to them.

The building will be two stories 40x100, and will be faced on the front and west sides with white pressed brick, plate glass front and plate glass on the west front corner. The contract price includes wall seats for the lodge room on the second floor.

It is the intention of the contractors to rush the work as rapidly as possible and a member of the firm left at once for Portland to purchase material. This

will be the finest and most attractive building in the city.

How Bert R. Lean, of Cheney, Wash., was saved from a frightful death is a story to thrill the world. "A bad cold," he writes, "brought on a desperate lung trouble that baffled an expert doctor here. Then I paid \$10 to \$15 a visit to a lung specialist in Spokane, who did not help me. Then I went to California but without benefit. At last I used Dr. King's New Discovery, which completely cured me and now I am as well as ever."
