## City discusses SAFER grant

**Council Comments**  
Councilor Thomas again addressed the possibility of readdressing the marijuana dispensary issue. He said, "I know it won't fix our problems but it might help." Warner agreed to look into some statistics and bring his findings to Council. Mayor Downing told

Council that he had just returned from a conference in Portland where Homelessness and Mental Health issues were of topic. He learned that people on the western side of the state did not realize that rural Oregon like Baker City did not have the resources that were available there. Downing said in some cases homeless or mentally ill persons were being put on buses and sent to this

area with nothing and once here were unable to find the help that they needed. He said that by getting that information out there he hoped that the practice would stop and while we didn't appear to have many homeless here that would stop any chance of their becoming one. With nothing further Mayor Downing adjourned the meeting.
