Christmas tree permits available

It's that time of year! Christmas tree permits for the Wallowa-Whitman National Forests are now available to purchase at your local Forest Service office.

Permits are valid on National Forest System lands only, and do not authorize tree cutting on private, state, or other federally managed lands.

Permits cost \$5.00 each and are limited to five per household. Tree permits

and forest maps are available during regular office hours, Monday through Friday at any Forest Service office.

Again this year, all fourth graders are eligible for a free tree permit through the national Every Kid in a Park initiative.

In order for students to receive a free tree permit, they must present a valid paper voucher printed from the Every Kid in a Park website. Just visit

www.everykidinapark.gov and follow instructions to obtain and print the paper voucher.

Then, bring the paper voucher with you to your local Forest Service office to claim the free permit. Students must be present to pick up the free permit.

These free permits can only be issued through your Forest Service office and will not be available through local vendors who sell permits.

Wells Fargo branch to close

Quintela and the other Team Members have been involved in various community activities over the years, including the Festival of Trees, Miner's Jubilee, 4-H, and the Powder River Cleanup.

"We've been happy to be a part of that. Our team

has really liked serving the community, here in Baker County (there are customers in the City, as well as throughout the County, including the outlying areas). It's been fun for us to be able to help them, and be a part of the community."

Fogerson said, "Customer accounts will not be impacted, and our goal to make banking as easy as

possible. We would like to remind customers that Wells Fargo offers many convenient options..." For general banking questions, Wells Fargo can be contacted at 1-800-869-3557; for business customers, 1-800-225-5935; for hearing-impaired customers, TDD/TTY, 1-800-877-4833; as well as online, at wells Fargo.com.

He said it took a lot of teamwork. The Candy Corn Challenge was where they used 100 toothpicks

and a cup of candy corn and they needed to build the tallest tower. Ashton explained that his favorite part of Friday Academy is STEM.

3rd Aly Everett was the final presenter and she discussed the Pumpkin STEM Activities.

There were three stages to the activity. The first was guessing

the width of the pumpkin, how many seeds were inside, and the weight.

The second part was nail polish pumpkin art, using three different polish colors, poured the polish into a water bucket and dunked the pumpkins into the water.
