City Council

CONTINUED FROM PAGE 7

City Manager/Director Comments

City Manager Warner advised Council that he was working on putting together the information they had requested regarding marijuana revenues, but he was still trying to get more solid information.

He brought up the property maintenance ordinance again saying he felt

that this was an important ordinance but acknowledged the intent of the ordinance was crucial.

He also apologized to Council for not stepping in at the last Council meeting when citizen Ryc Reinks questioned Council about the City's financials.

He stated, "You shouldn't know; that's my job and my staff's job to know and then advise you when needed. I'll try not to let that happen again."

Council Comments

Councilor Nilsson again brought up the subject of pursuing a City Municipal Court.

Councilor Andersen gave another update to the watershed issue, stating a new letter had been drafted and was being sent to the Forest Service that was more specific about what the needs are.

The meeting then adjourned.
