

NEW CHINA-GLAZE
THE ARISTOCRAT OF MODERN EXTERIORS

GIVES YOU REAL ALL-AROUND PROTECTION FOR YOUR HOME

Here's modern protection for your home—a shield of beauty that really cares for itself. No need to scrape, putty or paint to keep ahead of the weather. CHINA-GLAZE Shingles give you housetime protection against wind, moisture, fire, because their protective qualities are built right into the material,

not just painted on. Depend on the built-in protection of CHINA-GLAZE as your first and most important line of defense in safeguarding your valuable home investment.

COLOR AND DESIGN
for today's . . . and tomorrow's living!

WASHES LIKE A CHINA DISH
When your home is finished with new CHINA-GLAZE Siding you simply wipe away soot, smudges, dirt, and dust. Its exclusive china-like finish comes sparkling clean as a china dish.

PROTECTS AGAINST FIRE
Made of durable asbestos cement, new CHINA-GLAZE will not burn. Protects your home against outdoor sources of fire, such as flying sparks, burning embers. Safeguards your family and possessions. Gives you a wonderful new peace of mind.

DEFIES ALL WEATHER
Sun, wind, rain, sleet, snow—come what may, none of them penetrate the china-like finish of new CHINA-GLAZE. This glazed ceramic coating is baked on under high temperatures. Weather's sealed out, colors are sealed in.

PLUGS AIR LEAKS
Big, extra-wide shingles are die-cut to precision dimensions for precision fit. Consequently, when nailed in place, new CHINA-GLAZE has fewer joints. And all joints are tighter-fitting. This results in greater all-around protection for your home.

7 DELIGHTFUL COLORS
These beautiful siding colors, Green, Warm Gray, Red, Yellow, Acapp White, Meadow Green, and Light Blue, were selected through scientific tests and surveys by a world-famous color authority . . . to please your taste to perfection. Hand-some "shake" texture assures distinctive beauty all around the house.
