

You make sure the job is covered.

We make sure you are.

At Kaiser Permanente, we know what it takes to keep you covered. After all, union workers like you helped lay the foundation for our nonprofit health plan more than 60 years ago.

We make it easy for you to stay healthy. Preventive care helps catch potential health concerns early. And if you get injured or sick, we'll help you get back on your feet.

For more information, visit us at kp.org.
