**OUR UNION'S
GOT US COVERED**

Operating Engineers Local 701 ordered 7,000 masks and is distributing them to members, their spouses, and children. In the photo above and far left, Mike Grossnicklaus and Conner Oblack don masks on the Bridgeport Project on Columbia Blvd. in Portland. The closeup is Union Rep Nate Stokes.

To Corporate Dentistry

Life has been put on pause but don't let your dental care wait!
Our offices are currently open to take Emergency Dental appointments and we will be open soon to continue to service you for your regular dental needs.

We are taking appointments now!

Don't forget that all Sunrise Dental locations are independently owned and unionized. Now is more important than ever to support your local businesses and your union shops!!

During the COVID-19 pandemic, Sunrise Dental partnering offices will be offering emergency "palliative" care at no charge for those members that have lost their benefits and are experiencing financial hardship.

*Palliative treatment would constitute our best effort to get the patient out of pain/discomfort; procedures such as extraction, pulpotomy (the initial stage of root canal treatment), bite adjustment, incision, and drainage are among such procedures that the fees will be waived for those members without dental coverage whom cannot afford such dental care. This care does not include RCT, build up, crown, or extraction of a tooth which needs to be referred to a specialist. Please call a Sunrise Dental office for any questions.

Please visit our website to contact the location nearest you:
