## Kay Files Civil Action Lawsuit

*continued from page 6*

Michael Kay was employed by the City of Vernonia for nine years as a police officer, Sergeant, acting Chief and Captain. He was terminated by the City in 2011 following several investigations into his conduct. He was later decertified by DPSST for ethics violations. In 2013 he lost an employment arbitration hearing that reviewed his termination.

The current lawsuit claims that, as result of various due process violations and breeches of law, Michael Kay was unfairly terminated and decertified by DPSST and that he lost wages, his retirement and his career. The lawsuit further states that Kay was intentionally deprived of his rights by the defendants who engaged in illegal,

malicious and wrongful conduct together and individually. The lawsuit claims that Kay has suffered physical, emotional and financial harm and has been placed in an untenable position of believing his life may be in danger and that he has suffered from anxiety and extreme emotional distress.

The lawsuit asks that Kay be awarded economic damages of no less \$250,000 and noneconomic damages of no less than \$1.5 million.

According to Vernonia City Administrator Haack, "The City has no comment on the current legal matter and will rely on the advice of the City Attorney and attorneys provided through City County Insurance Services."
