

By Stacey Lynn

A new beginning! Reflecting on where you have been will help you to know where you wish to go.

Capricorn (December 22-January 19) January finds you determined and dynamic. The next four months will be remarkable for you. You must rise to a number of challenges- but you are already aware of this, and more capable of turning gritty situations into pearls. Expressing your love and care for others is where you can find the most happiness and fulfillment. Try not to engage in any kind of power struggle at this time. Tricky strategies are likely to backfire come April. In fact most situations you're facing make or break then.

Aquarius (January 20-February 18) Don't feel that you have to push too hard as January begins. Inner discovery is what really counts now. At some point during the week of the 11th, you will notice yourself thinking in a new way about something, finding unconventional solutions, or meeting up with an original thinker. The new Moon on the 30th brings about a positive time for fresh starts. Your choice of new directions will be challenged by others. You have big responsibilities and obligations, but significant changes are on their way over the next few months.

Pisces (February 19-March 20) Your friends have rarely been more important. Getting together with others to work on a group project, joining a course, or simply spending time with inspiring people can really make a difference to your life. Jupiter meets potent Sirius between the 10th- 16th in the most fertile and romantic area of your horoscope. This rare alignment could open

Your Horoscope for January 2014

your eyes in many ways, or bring someone important into your world. Magic is afoot!

Aries (March 21-April 19) A down-to-earth review of your life brings fresh insights. Revelations spring from your past. Why not chat with an old flame, or dust off a forgotten friendship? Exciting partnerships beckon, but don't expect to get your own way all the time. People will ignore you or go their own way if you're too pushy. Cultivate your softer side. You like to focus on goals. Learn to look deeper this month.

Taurus (April 20-May 20) Your communication skills, writing, socializing, and studying can all benefit from digging around in the past; abandoning projects, half-finished schemes, or old love affairs offers inspiration for your future. You may need to play catch-up with yourself before you can really get going. Things you want now may no longer suit you in the weeks to come. News or a conversation during the 10th - 16th reveals a whole new set of possibilities.

Gemini (May 21-June 20) Financial security is on your mind. Focus on your earnings and think about how to get a bit more cash flowing in your direction. Don't stress too much. There are many delays this month. Find new ways to stimulate your mind or take your imagination on a magical mystery. Mars in airy Libra energizes your creativity and heats up romance until July. Don't allow yourself to get swamped with demands.

Cancer (June 21-July 22) This stands to be a very important year for you, in work, your partnerships in love, and with long-standing friendships. Even though you feel challenged by certain people, you have more than it takes to triumph over difficulty. This is a time when you can turn things around, attract what you need, and set out to make dreams come true. The full Moon on the 16th brings about a great time to close one stressful chapter of

your life. Find ways to simplify and cleanse your world and environment.

Leo (July 23-August 22) Your physical, spiritual, and emotional well-being is top of the New Year list. It is time to focus and take a good look at you. You are no good to others if you are frazzled, so why not take this opportunity to re-think your routines? Taking time out to discover what (and who) inspires you is vital. At the end of January there is a fantastically exciting new Moon in Aquarius, which signals new beginnings, love, and imaginative ideas.

Virgo (August 23-September 22) Love, children, and creativity are in your thoughts as January begins. Perhaps things aren't going quite the way you planned. You may be listening to too many people. Take a step back and you will find your own answers. Between the 10th -16th you realize that the universe is smiling at you after all. Joining a group of friends or co-workers will bring positive results. Get your ducks in a row and plan ahead.

Libra (September 23-October 22) This promises to be a memorable year for you. You've achieved more than you realize already! It will be a productive time if you collect your thoughts and see 'what's what.' Fight for justice, harmony, and balance

and be the best you can be. There may be a power struggle at work or in your family, but your natural born talent for negotiating will help you smooth things out. What's happening now is a part of a bigger story that will play out in the late Spring.

Scorpio (October 23-November 21) This is one of those times when your words and creations can pack a real punch. There's a lot of powerful energy coming your way, and it is possible to go completely over-the-top and exhaust yourself. If you need a lucky break, one will come your way between the 10th -16th. Planetary energy will be filtered into your intuition, dreams, and subconscious self. It would be wise to focus on these areas. Things happening behind the scenes now will bring fulfillment and joy later on.

Sagittarius (November 22-December 21) Your ruling planet, Jupiter, is in reverse until March, so 2014 may seem to get off to a slow start. This gives you a wonderful opportunity to increase your skills, knowledge, and to give serious thought to your values and ideals. Take action on things that matter to you, and bring those dreams into reality. Between the 10th -16th, doors will open for you and you will see some very intriguing possibilities. Take your bright ideas seriously this month!

Columbia Humane Society Featured Pet

"Ashes"

Ashes came to us from our most recent Cali transport. She is about 3 years old, gets along really well with other dogs and loves little puppies. We think she is going to do great with kids and all other animals. As we learn more about her personality we will update her profile. If you have any questions please don't hesitate to call 503-397-4353 or email: animalwelfare@columbiahumane.org
