

Class of 2010 Revisited *continued from page 14*

exam that earned him the title ATC (Athletic Trainer Certified). After graduation he will move to Ellensburg, Washington where he will attend Central Washington University to earn his Master's degree in Exercise and Sports Science. There he has received a graduate assistantship and has been assigned to be the ATC in charge of the baseball team. They will be paying his entire tuition as well as a monthly stipend.

She will be graduating with departmental and academic honors. She was a recipient of the Ernest F. Hollings Scholarship and completed a ten-week internship at

NOAA Headquarters in Washington, D.C. last summer. During school she has volunteered as a nature guide working with children, for several democratic campaigns and is currently participating in an internship with Environmental Law Alliance Worldwide. She has worked as an intern and is on the advisory board of the UO's College Scholars program. In fall, she will be attending Lewis & Clark Law School as one of their first class of Environmental Law Fellows.

Amy Rethwill started college at Eastern Oregon University. After a year and a half at EOU she transferred to Portland Community College and is currently still attending PCC, working towards a degree in Elementary Education. She is also working at Vernonia School District gaining valuable experience. She plans to finish her degree at Western Oregon University. After school she will hopefully begin her teaching career with the Department of Defense so she can see the world.

Preston Roach is in his fourth year at Oregon State University. He will gradu-

ate with a Bachelor's degree in Chemistry in 2015.

Melissa Sandstrom, after graduating from Vernonia High School, attended The Art Institute of Portland. With hard work and dedication she earned a Bachelor of Fine Arts with High Honors in Graphic Design. She is now working full-time at Lucid Inc. a small design firm in downtown Portland. She loves her job designing packaging for Target, creating branding for companies like Pettyjohn Electronics (a new guitar pedal company), and illustrating anything from posters to decals. If you would like to view Melissa's senior portfolio visit melissasandstrom.com!

Katy Stevens had four different majors before settling for psychology with a

focus in behavioral neuroscience. She will graduate in June from the University of Portland. She led a two year long research project at the Oregon National

Primate Research Center studying the effects of maternal diet on infant Japanese macaques and is currently in the process of writing a publication for this work. Her thesis is also based on research completed there. She has been president of the University of Portland's Neuroscience Club, the main responsibility of this position is to coordinate free neuroscience lectures from top local investigators. She volunteers for Portland Women's Crisis Line and was one of the first recipients of the University of Portland's "Scholarship in Humor." After graduation she plans to continue working at the Oregon Health and Science University for a year and maybe do a little traveling before going to graduate school.

Dylan Vaughn will be graduating from Pacific University in 2015 with a Bachelor's of Science in Psychology and an emphasis in neuroscience. He is the President of the Psychology Club and Vice-President of the international honors society in psychology Psi Chi. He has several memberships to professional organizations and has made the Dean's List multiple times. He has also won several awards for research projects in psychology and is a mentor and teacher's assistant for his peers. After graduation he plans to pursue a PhD in clinical psychology and a postdoctoral study in neuropsychology.

Alex Lende has been in the Air Force 18 months as an aircraft mechanic on the KC-10. He currently lives in New Jersey, and has been able to see NY City, Washington DC, Philadelphia, Baltimore, and many more places. He has been a volunteer, tutoring in shelters and participating in other life shaping experiences and says it has been very rewarding. He has been able to meet aircraft pilots from Germany, France, Italy, and Britain. He earned an Associate's Degree in aviation technology, and is currently working toward a Bachelor's of Science in Sports and Health Science with a concentration in exercise science.

Chelsea Lindsey (Patton) will be graduating next year from Brigham Young University where she is an Environmental Science major. She will also complete the Spanish Language Certificate program. She has a 3.45 GPA and will be doing research with a professor next year.

Souvanny Miller is graduating in June from the University of Oregon with a Bachelor of Arts in Environmental Studies and a minor in Geological Sciences.

DON'T BAIL ON THE JAIL

SUPPORT SAFETY & SECURITY IN COLUMBIA COUNTY

Without a Jail

- The criminal justice system won't work, crime will go unpunished.
- Criminals who drive drunk, break into cars, deal drugs, and spray paint homes and businesses will never see a single day in jail.
- Probation violations won't be punished.
- People involved in violent altercations, like domestic violence, will be released immediately after arrest with no cooling-off period in jail.
- Felony offenders, like rapists and murderers, will be transported to Polk County at great expense while our jail is left empty.
