

Your Horoscope for June 2014

By Stacey Lynn

June is the green flag to go! Get out of the abode and wipe the cobwebs away.

Gemini (May 20-June 20) This is a strong month for personal plans. You may be giving off mixed signals until the 19th, but afterward communications will be a breeze. Near the 18th, a partner may need extra attention, and the 23rd is strong for strengthening relationships or attracting new ones. Fate is in your hands. You have the power to make things happen on your terms.

Cancer (June 20-July 22) You are strongly motivated to increase personal income flow this month. The effort is likely to meet with success. The first 3 weeks are largely devoted to some level of emotional retreat, you're beginning to feel in control of your life the last week of June. This is a great period of effecting change in your life. Partnerships are absorbing from 21-25.

Leo (July 22-Aug 22) While you have plenty of energy this month, the question will be where to direct it. Friendships, group activities, and personal aspirations are center stage. Tricky matters with friends and lovers arrive on the 18-20. Don't let misunderstandings get in the way of pleasure. A strong period of independence is introduced this month.

Virgo (Aug 22- Sept 22) Your attention is devoted to career initiatives this month. Going over past mistakes professionally, and dealing with a few misunderstandings personally, happens until the 19th. It is not the most energetic month and you may deal with minor romantic snags. Social engagements and romance are most likely to be found through work.

Libra (Sept 22-Oct 22) You are working hard to achieve your goals this month, both material and spiritual. You are spiritually adventurous and are more philosophical than usual. A partner could be expressing more independence. Single Libras might find a partner through a friend from 5-8. After the 19th, delays with travel plans lift.

Scorpio (Oct 22-Nov 21) This is a strong period for work and career. You could receive public recognition for work you do now. If you aren't the

boss, but would like to be, this could cause friction. Get rid of the excess in your life, whether physical or spiritual baggage. The 18-20 could bring some touchy matters, likely financial. Look for a job and you will find one.

Sagittarius (Nov 21-Dec 21) This is an expressive month for you. Satisfying your itch for change and adventure seems like a good idea. Tricky matters with finances and partnerships need to be handled. It is not a month in which asserting your will or pushing your agenda will get you very far. Full moon in your sign on the 18th may come with an emotional outpouring.

Capricorn (Dec 21- Jan 20) Handling details, focusing on improvement, and getting down to business figure strongly. Your attitude toward what makes you feel secure is changing and there is intensity to your nature. From the 18th forward, relationships and compromise take center stage. Best days for opportunities are the 10th and 20-24th.

Aquarius (Jan 20-Feb 19) You have a strong need for recreation and pleasure this month. Your energy is on the low side, so when work becomes a more pressing concern after the 20th, you might feel a little out of focus. Plenty of conversations, some heated, take

place with a partner. The 12-13th is a tricky period when you could be feeling unappreciated or stressed. Finish up projects before the 26th for maximum success.

Pisces (Feb 19-March 20) Work is busy and challenging mainly because your heart is with your home and family. You are more able to increase your income by performing tasks that others dislike doing this month. Career demands peek on the 18th. The question of friendship and acceptance for who you are crops up with a close partner. After the 18th a more pleasurable cycle begins.

Aries (March 20-April 19) A busy and exciting month. Although you may be doing much, you may find you aren't producing much. Perhaps you have too many balls in the air. The first 3 weeks of the month are full of errands and appointments before calming down. The 3-8 are excellent for personal relationships and romance heats up this month.

Taurus (April 19-May 20) You will experience an increase in energy to tackle major projects. Finances may be tricky until after the 19th. If you are unclear about making a purchase or investment, stay on the fence until you are thinking clearer about it. Frustrations in career occur mid-month; any face-offs are most likely about money.
