

By Stacey Lynn

Pisces (Feb. 19-March 20) Nothing much will happen in your sentimental life, or the things that happen will not make you very happy: your partner will neglect you or will not understand you, you'll experience a period of loneliness, a disillusion or who knows what other frustration. The second part of March will enhance your capacity to attract, and you'll regain control on your sentimental life. Venus will bring you luck with love when traveling, through dates, conversations or correspondence. You'll have charisma, you'll have an excellent capacity to organize and coordinate, you'll be in the center of attention and all your qualities will be properly highlighted. Keep yourself informed, write, speak, read, calculate!

Aries (March 21-April 19) The first part of March promises to be passionate and full of surprises for Aries. All the month you will be exposed to a risk of conflicts, so you should control your impulsive instincts. You'll constantly be on the move, rather high-strung, and you might sometimes rush to decisions, react aggressively or take too big a risk. Remain prudent all throughout March, because there could be incidents or unexpected critical situations at any time. Take it easy! Count to three before you (re)act - and keep your sense of humor! Your passions may serve you best behind closed doors where you can be your true fiery self.

Taurus (April 20-May 20) In order to have a happy relationship, in the first part of March, Taureans will have to synchronize their secret aspirations with their ways of taking action. It'll be useless to secretly dream of a great love if you do nothing in practice or if you launch into conquest actions so complicated and obscure that nobody can understand what you really want.

Gemini (May 21-June 20) There will be some that will want to help you and others that will only want to ambush you. Use your observation skills and your excellent instincts to identify the well meaning and the harmful ones. After March 17th your optimism will come back and you'll become a bit stronger. Don't mix money with friendship and only invest in solid, verified things!

Cancer (June 21-July 22) Cancerians will go through a more relaxed period, in which they will express their emotions more easily and will have more confidence in their ability to seduce. You will be attracted to people with status and visibility, you'll want your partner to be a person that deserves your admiration, that you can be proud of. The Mars-Venus combination can be the sign of a period of passionate fight for reaching an ideal. March foreshadows to be very favorable both for your career success

Your Horoscope for March 2015

and on the financial level. Except for agitation and stress, Cancerians don't seem to be bothered by much in March 2015. You are likely to be in good shape both physically and mentally.

Leo (July 23-Aug. 22) You have secured a full and satisfactory sentimental life for yourself until the middle of the summer 2015. March will be one of the best months. A trine will stimulate Leos' sentimental life and can bring them a new relationship or satisfactions in the existing one. It will be the time of accomplishments and shared achievements. March will be an active month for Leos, with a lot of challenges and satisfactions. Long-distance collaborations and the university and cultural environments will be good for you. As regards money: stay clear-headed and practical! It is recommended that you don't push it and that you avoid excesses and take care of yourself.

Virgo (Aug. 23-Sept. 22) This is a romantic period for Virgos, but somehow idealistic. The Sun eclipse on March 20th says that in the weeks around this date there might appear unexpected, unusual, possibly unpleasant events. All in all, you will be recommended to be careful about what you become involved in, especially after the 13th of March. No matter how promising things seem to be, they could degenerate if you don't manage to establish clear and very honest cooperation terms. Communication must be sincere and open, and the purposes clearly defined. There is a risk of loss or financial troubles. Therefore, all Virgos are recommended to be prudent. Read a detective novel or a psychology book, or start a personal investigation!

Libra (Sept. 23-Oct. 22) Stimulated by high society gatherings, Libra's private life will definitely begin a very dynamic phase, marked by significant or meaningful events. The passionate tendencies will be highly marked in March and offers will not be scarce. It is very likely that a new relationship will appear, or the existing relationship will undergo a process of change. Trips, friends, socialization will have an important say in Libra's sentimental life in this period. At the same time, you can expect competition also, and even direct confrontations. If you manage to keep your diplomacy, you'll only have to gain out of it. Be flexible and adapt to situations as you go!

Scorpio (Oct. 23-Nov. 21) March will surround you with romantic waves. Scorpio's sexual energy will be blinded by the diffused veil of idealism. A witty remark here, a sweet look there - and you can end up falling in love before you even realize it. March will be a busy month for Scorpions at the professional level, but with immense creative potential and with high chances of accomplishments in their career. March will also be favorable to Scorpions in the financial department. In the second part of the month you'll have good luck with collaborations. Be careful when driving, when handling dangerous objects or substances (sharp tools, hot things, fire guns, inflammable materials, mechanical or

electrical devices, etc.)!

Sagittarius (Nov. 22-Dec. 21) March will be the most passionate month in 2015 for Sagittarians. It will bring intense emotions, tumultuous sentimental-erotic developments, unexpected events, never experienced before. The consequence could be a crazy chase after fun and pleasures. This will be the month in which you can make remarkable progress. You can now lay the foundation of a business, develop, consolidate and even accumulate. Pay more attention to parents, home and properties! Know what you want and go in that direction.

Capricorn (Dec. 22-Jan. 19) The first part of March 2015 will not be very generous to Capricorns as regards love and pleasures. The attention of Capricorn will go to pragmatic objectives, such as the home and family. You might move houses, redecorate, solve some problems related to parents, etc. On March 17th there will be a change announcing a period that will be good for fun, romanticism and erotic pleasures. The most favorable moments for Capricorn people will be around March 22nd-23rd. Money will especially come through other people or by means of secret/discreet sources. You'll have moments of hyper-activity or irritability that will alternate with moments of confusion and lack of

concentration. Open your heart to an old friend!

Aquarius (Jan. 20-Feb. 18) Expect a discussion, a message, a trip or a surprise-encounter to cause an important event for couples or, who knows, maybe even a new love. It is also possible that Aquarius' relationship/love is stimulated or influenced by some shared intellectual interest or by an activity that has to do with groups, with an audience, speeches, information. Trips or distances can also be involved. It will be a period when you make decisions and settle issues. Money will come also. Nevertheless, you'll have to be very careful. You risk saying things that you'll regret. Try to relax, act calmly and prudently! If you haven't done it recently, check the technical condition of your car!

Safe Kids Columbia County Car Seat Clinic

Saturday, March 14th
