

Your Horoscope for November 2016

By Stacey Lynn

Sink or swim, all depends on what you allow to weigh you down. Find those things that hold you back and let them go.

Scorpio (Oct. 23-Nov. 21)

Love is practical right now. Strategies and financial planning are where you can really succeed. Regardless of the topic, you are convincing and can negotiate your interests. Health issues may arise for a family member or parent and stress follows. Do not over-analyze relationships, be cooperative.

Sagittarius (Nov. 22-Dec. 21) Are you being over-demanding? This will interfere with your love life. Things are not going easily, at least not on the first try and you really don't feel like working. In the second half of the month, love and events unfold in your favor. It will be easier to say what you think and feel. Illness can come with stress.

Capricorn (Dec. 22-Jan. 19) You are extremely passionate and driven the first part of November. You may create intense affairs as well as intense arguments. Peace and tenderness return after the 12th. Things aren't going easily at work, but with patience and perseverance you can achieve special things. You will receive support.

Aquarius (Jan. 20- Feb. 18) Life is beneficial for you until the 11th then life is sprinkled with difficulties or disappointments. Your path to professional success is wide open. Your abilities as a leader or entrepreneur are at their best. Finances are at a high but you shouldn't squander on fanciful things. Avoid excesses.

Pisces (Feb. 19-March 20) There could be mixes between your love life, career or status. Either way, social events and activities build a favorable amorous setting. If you have a tendency toward addiction, keep it in check for the desire to escape may intensify. Sit quietly and work slowly on a well thought-out financial plan for the future.

Aries (March 21-April 19) This is a time of attracting what you want and the offers abound. You will attract the attention of one who is a "higher up." Work based partnerships are very important at this time. Do not neglect health issues or postpone treatments. Make public appearances and attend social events. Get involved.

Taurus (April 20-May 20) Love interests merge with work interests. You may be attracted to one who has authority or power. This is a month of making things happen and with luck on your side, you can capitalize on it. You have great energy and resilience, but need to avoid excess. See a movie, visit a museum or read a good book.

Gemini (May 21-June 20) Relationships are positive and affectionate but grown-up from now until Oct. 2017. You have an obstacle to overcome, but you will get to where you want to go. You stand out at work before the 21st. Success demands struggle and determination. Do not take risks nor expose yourself to serious illnesses.

Cancer (June 21-July 22) If you have been looking for love, luck may be with you from the 12th - 21st. Use this window of time wisely to get what you want for the right reasons. Do not rush into any financial decisions without contemplation and investigation. Unexpected earnings are possible but will not come as "easy money."

Leo (July 23- Aug. 22) Are you angry, Leo? Frustration can lead to problems bigger than you already have. Control your impulses and direct the energy into physical work. You will accomplish much and bring love and rewards your way. Pay attention to money and be realistic. It is a good time to develop your patience and diplomacy.

Virgo (Aug. 23-Sept. 22) Practicality out weighs dreamy love or play. Romance is certainly possible, but finances need to be looked at seriously before moving forward in that area. Life becomes busier and more demanding. Take it as it comes and you will prosper. If you become overwhelmed, take a break and redirect your energies.

Libra (Sept. 23-Oct. 22) An intense amorous month is ahead. With hard work comes financial reward. The potential is great for both from the 9th - 21st. There is stress in the area of home or real-estate. Your energy is high and you are adventurous. Watch out for excess or carelessness. Study something serious or complicated.
