

Your Horoscope for April 2017

By Stacey Lynn

Mercury, the planet of thought, is retrograde, appearing to move backwards from April 10th - May 3rd. What does that mean? No one will be thinking clearly.

Aries (March 21-April 19) Think about financial initiatives with care and clarity. There is potential for achievement and increased earnings. You have the ability to get what you want, but with difficult planet placements, frustrations and failures will pop up. Romantic experiments could bring surprises. Take care of medical issues.

Taurus (April 20-May 20) Take it easy and think twice before doing anything. A love from the past may resurface. Things could get complicated. Good communication is essential. You feel a push to reach goals. Collaborations and partnerships are spotlighted until the 20th. Financial matters become difficult. Slow down and show moderation.

Gemini (May 21-June 20) Couples may "walk through fire," this month, but it will make the relationship stronger. In order to succeed, find allies, work as a team, use all of your connections! Promote a special talent or something you are passionate about. After the 10th your body is weakened. Surround yourself with upbeat people.

Cancer (June 21-July 22) Goals achieved this month bring both recognition and money. A favorable month for climbing the ladder and asserting yourself. It is important to you that your loved one be serious, hard working, and aid you in building a home. Mix humor and spontaneity into your relationships to ease stress.

Leo (July 23-Aug. 22) This is an annoying month for Leos. With a lot of energy and competitiveness, conflicts are easily ignited. The first two weeks of April may come with delays and misunderstandings. If things get crazy within relationships, relax,

they will work out after a couple weeks. Watch your spending!

Virgo (Aug. 23- Sept. 22) Hang on! Tests center around home, family, property, money and business. All documents need to be treated with the utmost attention. Calculations need checked and rechecked. Energy may be low so exercise to relax mentally. Relationships begin to soften after the 15th. Be careful of your critical mind.

Libra (Sept. 23-Oct. 22) April may not start out too well. There's a crisis for couples. Your partnership may be going through something or there are concerns about joint finances and responsibilities. Treat any health issues seriously, no matter how small they seem. Keep your accounting in order for money may slip through your fingers.

Scorpio (Oct. 23-Nov. 21) Energy levels may be high. Careful, a tendency to push things too far may play a role in relationship upsets. Things will get better, but you may still not get the satisfaction you are hoping for. Recognition, appreciation and more freedom are yours the first two weeks of April. Take up a hobby for relaxation.

Sagittarius (Nov. 22-Dec. 21) April isn't a comfortable month, dear Sagittarius. Maybe it's time to take on some responsibilities or settle down. Think things through, analyze, research and meditate to aid your progress. It is a good time to re-evaluate or return to old projects. Take care of your health. You know the issue already.

Capricorn (Dec. 22-Jan. 19) Reconnect with old workmates and friends that you haven't seen in a while. Behave responsibly. Take precautions to fortify your body. Financially there's no significant change. You are ready to shed all inhibitions and take a plunge when it comes to love. At this time, things could get complicated.

Aquarius (Jan. 20-Feb. 18) Relationships and money are tightly connected.

Communication brings positive results if it is open, honest and well thought out. In love, things may not go as planned. Maybe take a step back to see things more clearly. You are wanting to get moving and you should. Mental energy is high and creative, channel it.

Pisces (Feb. 19-March 20) Your goals are clear and pragmatic. The motivation is as material as it can get. "How do I make my work as profitable as possible?" Steer clear of exaggerations and excesses. Do not rush when making important decisions. Seek advice from others before reaching a final decision. You are ready to make decisions regarding your love life.
