

# Your Horoscope for May 2017

By Stacey Lynn

As we move slowly toward a more calm and pleasant time, obstacles and difficulties must be dealt with before progress takes hold.

**Taurus (April 20-May 20)**

Relationships take a back seat and material concerns are at the fore-front. The first two weeks of May bring promotions and attract the appreciation and respect of important persons. Pay attention to your health. Your great mood will magically reappear next month. It is tough to out do adversaries right now.

**Gemini (May 21-June 20)** May is full of passion but confusing. Skillfully navigate through temptations and obstacles in order to have a love life with as few complications as possible. Expect increased efficiency in work. It will take great effort and perseverance to achieve goals. Expenses could be bigger than usual. Practice patience and use your sense of humor.

**Cancer (June 21-July 22)** The overall feeling this month could be frustration or constriction. Responsibilities won't leave you much time for relationships, but the days around the full moon (May 9-11) bring a romantic break. Hard work and effort will pay off. Take care of yourself and don't over do it. Old health issues could reactivate.

**Leo (July 23-Aug. 22)** The desire to have someone to share responsibilities with is strong. To strengthen existing relationships, share information and thoughts beyond day to day life. There is opportunity to accomplish goals and gain authority. Success has to do with studies or journeys. Obstacles can be overcome through patience and diplomacy.

**Virgo (Aug. 23-Sept. 22)** Concerns are largely related to money or material things. This is not a time to take risks related to business, earnings or investments. Work on improving your health. This will help any feelings of anxiety. By the time May 15 arrives, you should be feeling better and more confident. Keep calm and don't lose your sense of humor!

**Libra (Sept. 23-Oct. 22)** You are going through a series of challenges that will set things on the right track. The challenges and the process of going forward will continue until July. All of this can cause tension. Material motivations are very strong. You may experience competition and rivalry but winner's luck is on your side. Try to relax.

**Scorpio (Oct. 23-Nov. 21)** Relationships may be complicated, but June will bring much needed happiness. You are going through a process of transformation or refinement. Professional

collaborations are important for Scorpios. Avoid over spending - seriously! It's the perfect time for improving your body and lifestyle. Analyze and investigate.

**Sagittarius (Nov. 22-Dec. 21)** An intense month for Sag's love life, the highs as well as the lows. The last two weeks of May could be marked by recurrent responsibilities, complications and conflicts. Professional pursuits become more fluent and luckier. Finances are good provided you don't make extreme decisions. Be diplomatic and show flexibility.

**Capricorn (Dec. 22-Jan. 19)** A month of sensuality and thirst for adventure. It's a time of intense emotions that require a level head or troubles will brew.
