

Local Logging Outfit Takes Part in ODOT Bridge Project

Crews from Mike Pihl Logging worked on clearing trees around a bridge on Highway 47 on February 22-23. The

work required temporary closures of the highway while crews were falling trees close to the road and doing clean up. The bridge is scheduled for replacement by Oregon De-

partment of Transportation (ODOT) this spring/summer.

The bridge, located just south of the Columbia/Washington County line, will require the complete closure of the

highway and a detour on Timber Road for up to 60 days.

An exact date for the bridge replacement has not yet been announced by ODOT, but sources say the closure could begin as early as April, depending on weather.
