Request for Proposals For Vernonia School District (4) Classroom Addition

Please go to the (Oregon Procurement Information Network-<http://orpin.oregon.gov>) for complete documentation and requirements.

Notice Summary

VERNONIA SCHOOL DISTRICT NO. 47J is distributing a request for proposals (RFP) for construction of a new steel-framed two-story school building (II-B. Fully Sprinklered) that houses four (4) classrooms and is approximately 5,754 sf.

The project is the construction of a (4) Classroom Addition:

- Construction of a new approximately 5,754 sf steel framed two story school building.
- The building is primarily slab-on-grade, matching the existing facility.
- The site location for the addition is relatively flat.

- Other components described in the contract documents.

The new addition will be an extension to the existing Vernonia Schools building, the site is constrained, and construction activities will need to be performed to minimize disturbance to the existing facility. The delivery method for this project will be based on Design, Bid, Build program.

Direct all inquiries to:

Steve Kragrud – Project Manager
Vernonia School District
Two Centerpointe Drive, Suite 250
Lake Oswego, OR 97035

ROSALLY

Purr-fect Pals

Rosally is a new addition to our cattery, and we are still learning about her. So far she has been pretty sweet and does not really mind the cat that is in the cage next to her. We don't really have much background on her and don't know what her history is with kids or dogs. We do know that she is about a year old and will give you all the love you ever needed.

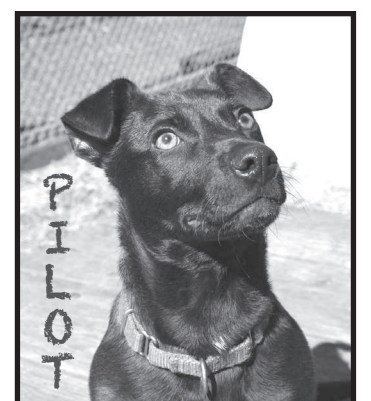

Her adoption fee is \$125 which includes her spay, microchip, vaccinations, 30 days free pet insurance, and a 14 day local vet visit. If you are interested in meeting Rosally please don't

hesitate to email animalwelfare@columbi humane.org.

Featured Dog

Pilot is around 5 months old and weighs about 13 lbs. This kid is no stranger to the shelter life. As a recent newcomer from a high kill shelter in Texas, he is relieved to be in the Pacific Northwest and is ready to start his new forever life. Pilot will do best in a home without young kids, as he can be very mouthy with his toys and with treats. He has had some training, but he is basically a blank canvas and ready to be worked with and molded into a wonderful dog. His ideal home would be one that is going to keep him active. If there is a dog in the home we would highly suggest that it be a strong female dog that is going to enjoy teaching him

all the right ways to act and play. We are uncertain about his abilities with cats. If you are interested in meeting Pilot we ask that you please email animalwelfare@columbi humane.org. Once you have an approved application on file we will then schedule a time for you to come in and meet him.

PILOT
