Park Trees Removed

Trees in the City of Vernonia's Ora Bolmier Park were removed during the week of January 18. The Douglas fir trees were afflicted with a spreading root rot that had caused several to die and fall, and the rest of the stand was a hazard to houses in the neighborhood. The City plans to immediately replant the area with several species not susceptible to the disease.

High Water Event

A heavy tropical rain storm caused local rivers and streams to reach minor flood levels on January 13. At the confluence of Rock Creek and the Nehalem River, water backed up into the City's Anderson Park horse arena.

Vernonia's Voice is published on the 1st and 3rd Thursday. Look for our next issue on February 4.
