VOTE \$100,000 BONDS

Water System Will Now be Built Without Delay.

FEW VOTES ARE POLLED

Council Has No Quorum Wednesday Night to Canvass Vote, Official Figures are Nevertheless Given by the Several Wards.

The special municipal election on Wednesday, held for the purpose of voting on the question of issuing bonds to an amount not exceeding \$100,000, said bonds to run for twenty-five years and bear interest at the rate of 5 per cent per annum, the proceeds from the bonds to be used in the construction of a water works system, carried by a pronounced majority. The only opposition to the measure came from the fact that the proposed mode of procedure had not been fully explained by the city council, the public generally appreciating the need of such an improvement. It is proposed to construct a pipe line for a municipal water system, the water to be taken from Layng creek at a point near the line of the forest reserve, a distance of about twenty miles, and connect with the present water system. Estimates of the probable cost, which have heretofore been published in The Sentinel,

place the figure in the aggregate at approximately \$70,000.

The city council met on Wednesday night in adjourned session to canvass the vote, but no quorum was present, and it adjourned to Saturday night. The vote was not large, the inclement weather probably keeping many voters from the polls. Now that the bond issue has been authorized by the qualified electors of the city, the municipal authorities will proceed to have plans and specifications of the proposed work prepared, and then advertise for bids for the construction work. And in the meantime arrangements will be perfected for the sale of bonds.

The First ward cast 50 votes, of which 45 were for and 5 against the proposition. The Second ward cast a total of 31 votes; 27 for and 4 against. The Third ward cast 76 votes; 57 for and 19 against. A total of 157 votes, as shown by the above, was cast in the city, 129 of which favored the issue, and 28 opposed it, making a clear majority of 101.

The polls were open for the purpose of said election from 9 o'clock in the morning until 12 o'clock noon, and from 1 o'clock until 5 o'clock in the afternoon. Tom Allen's shop was the voting place in the first ward and R. M. Veatch was designated as judge and J. C. Wallace and J. K. Barrett judges and clerks of said election in the First ward.

The Council room in the city hall was the voting place in the Second ward, and O. Veatch was designated as judge and J. M. Durham and N. H. Martin,

judges and clerks of said election in the second ward.

The store room in H. C. Schleaf's building on the north side of Main street near the bridge was the polling place in the third ward and D. G. McFarland was designated as judge and C. F. Walker and J. E. Ostrander as judges and clerks of said election in the third ward.

PAYS A VISIT TO BOHEMIA.

Mr. Wynne is Favorably Impressed With the Outlook.

Mr. H. F. Wynne, of the Spray-Wynne Company, returned the first of the week from the Bohemia district, whither he went to install a gasoline engine at the camp of S. J. Brund. Mr. Wynne is quite enthusiastic over the prospects there, and believes that ere long it will develop into a remarkably good mining camp. He visited the Crystal, Music and other camps and wherever he went he found good prospects. He says the gold is certainly in the field, the only thing lacking to make it productive being a smelter. Mr. Wynne is particularly impressed with the Brund properties, where the stamps will soon begin to drop.

Ed. Jenks is now in the Bohemia district doing assessment work. He has several good claims.

If you want a diamond to give for a Christmas present, call at Madsen's next week; \$50 diamonds for \$35 and \$45 for \$25.
