HAMPTON & COMPANY

A Genteel Colonial.

One Chimney Serves the Entire House—Economical to Build and Can Be Constructed as Planned For \$2,500.

Designed by P. T. MacLagan, Newark, N. J.

PERSPECTIVE VIEW—FROM A PHOTOGRAPH.

FIRST FLOOR PLAN

SECOND FLOOR PLAN.

The colonial shown in the photograph is almost square, it having a frontage of 28 feet and a depth of 31 feet. Being constructed on straight lines, in the main, the cost can be moderate if desired. The first story can be covered with siding and the second story shingled. Basement contains laundry, furnace or boiler, coal bins, etc. Reception hall has a nook with mantel and seat. A short flight of stairs leads from the kitchen to the landing of the main stairs, making a convenient arrangement for houseworkers at small cost in space. The feature of a single chimney for the whole house is one of economy. All the rooms of the first floor are of good size and connect well for entertaining. First story ceilings rise 9 feet 6 inches in the clear and the second story 9 feet. Height of cellar 7 feet. The attic has two bedrooms and ample storage room. Steam heating apparatus and a finish throughout in native hardwood are provided for in the architect's estimate of about \$2,500 for the outside cost when finished as here described.

P. T. MAC LAGAN, Architect.

"King Saul" will appear in Cottage Grove for the first time Wednesday Dec. 22, 1909.

Olympic Process Barley, 75 pound sacks. The cheapest and best, \$1.35 per sack at Spray-Wynne Company.

A Stove that has Out-lived over a half Century of Active Competition.

Temporary Causes such as liberal advertising sometimes create a demand for an article for a time, but only genuine merit can maintain as the Charter Oak has for fifty-five years, the popularity and the prestige it has to-day. This is the secret of their constantly increasing sale.
