Parks in New York.
 The State of New York is very well
 supplied with parks. In his recent
 message Governor Hughes said: "The
 State's total holdings in the Adiron-
 dack and Catskill mountains now
 amount to 1,641,523 acres, of which
 52,549 acres were required during the
 past year. The area of the proposed
 Adirondack Park is 3,313,564 acres,
 and that of the proposed Catskill Park
 576,120 acres, making a total of 3,89-
 684 acres.

When it is completed the Adiron-
 dack Park will be larger than the
 Yellowstone, which has 2,142,170 acres.

Out of Practice.
 "Well, I've got a job at last. It be-
 gins to-morrow morning and it's in a
 factory where there are a lot of girls.
 I'm more than half afraid to tackle
 it."

"Afraid of the girls?"

"Naw. Of the work."—Cleveland

SOMETHING FOR EVERYBODY

The wind gauge on shipboard regis-
 ters up to 105 miles an hour, which is
 as much speed as anyone expects.

A discarded automobile tire makes
 a good life preserver. Its buoyancy is
 sufficient to keep several persons afloat.

According to the United States cen-
 sus tables, based on the present
 growth, the population of New York
 City will be 9,000,000 in 1930. Man-
 hattan island will then have 4,000,000.

Siam has adopted the gold stand-
 ard, which really was promulgated in
 1908, and henceforth the unit of the
 Siamese monetary system will have a
 value equal to 55.8 centigrams of pure
 gold.

Baltimore's school board has under
 consideration the question of allowing
 corporal punishment in the public
 schools. The subject has been referred
 to a committee, to confer with the
 teachers.

Portuguese gardeners at Punta Del-
 gada, on St. Michaels, Azores, are get-
 ting rich raising fine pineapples un-
 der glass for the New York market.
 They are the biggest and best that
 reach that town.

The cup of St. Jacques, which in New
 York, is a dessert of delight, with its
 peaches, cherries, pineapple, orange
 and citron en compote in delicate ices,
 becomes in Paris a wretched compound
 of sliced sour apple in mushy snow.

French lights are the best along the
 shores, say the navigators. They are
 posted low, close to the water line, and
 so do not mislead like the Italian
 pharos perched high above the sea.
 They have the best lenses and are al-
 ways visible.

The project for building a new iron
 railway bridge across the Neva in St.
 Petersburg has now been worked out,
 and the bridge is to be begun with-
 out delay. The bridge will be of an
 extremely simple pattern, and its
 length is to be 1,750 feet.

The last statement of the interest-
 bearing debt of the United States
 makes the total \$897,253,990, while the
 gross bonded indebtedness of New York
 city at its last statement was \$905-
 260,115. The metropolis is carrying
 \$8,006,125 more than the nation.

There has recently been launched at
 Bath, Me., the largest wooden vessel
 ever built in the United States. The
 Wyoming, as she has been named, is a
 six-masted schooner of 3,730 gross tons,
 with a total length over all of 350
 feet. Next to her in size among wood-
 en vessels is the William L. Douglas,
 with a gross tonnage of 3,708.

Sausage is served as an adjunct to
 roast chicken on the London & Great
 Western dining cars. It rather resem-
 bles a frankfurter in flavor and tex-
 ture. The dining car service is dili-
 gent and well-meaning and the food
 is simple and plain. The car itself
 has about the same aspect of luxury
 as an American freight caboose.

The common law of England is an
 ancient collection of unwritten max-
 ims and customs of British, Saxon and
 Danish origin, which, by long use and
 approval, have become fundamental in
 English jurisprudence. Many of the
 principles of the English common law
 hold in this country, and throughout
 the English-speaking world as well.

As to the name Smith, a correspond-
 ent of the London Chronicle points out
 that while there are now about 350,000
 members of the great family in Eng-
 land alone, in Old Testament times, ac-
 cording to the first book of Samuel,
 "there was no Smith throughout the
 land of Israel." This verse the late
 Bishop Wilberforce said was the hard-
 est one in the Bible to quote without
 smiling.

Just before the American fleet left
 for its famous trip around the world
 there was some newspaper talk of a
 possible clash with Japan. The yarn
 goes that a highly placed person asked
 Admiral Schroeder what he would do
 if the Japanese fired on his ship.
 Schroeder sniffed. "They won't fire on
 my ship," said he, positively. "But if
 they did?" "Now," said Schroeder, an-
 grily, "if they did, hey? What the
 dickens do you think I'd do? Sue
 'em?"

"Love your wife like your soul, and
 beat her like your carpet." This is a
 Russian proverb. Another of the same
 spirit: "Not long hurt the bumps from
 a loved one's thumps." Wives have un-
 doubtedly been subjected to much ill-
 treatment in Russia, where most hus-
 bands have always held to the opin-
 ion that "Liberty spoils a good wife."
 Some Russian proverbs are cynical as
 to the delights of matrimony, and most
 married men know how to say: "Wed
 once, wait always."

Not being in sympathy with certain
 actions of the hereditary branch of the
 British Parliament, the London Chron-
 icle has been speculating on the possi-
 ble future of the word "lord." "So
 far it has resisted the democratization
 that has befallen 'lady'; no one talks
 of 'chorus lords,' or begins a speech
 with 'Ladies and lords!' In modern
 Greek, however, 'lords' means simply
 'Mr.' and it would be rash to predict
 that our descendants will not all be
 'lords' in the twenty-first century."

The fiction of a constant bee—that
 is, of a bee which keeps to one species
 of flower on a single journey—dies
 hard. Thus the writer of a note in the
 Field on "Bees, Flowers and Fruit!"
 says: "The same bee passes from one
 to the other colored varieties of the
 same species, though rarely, if ever,
 visiting other species of similar color."
 "It is probable that bees discrimi-
 nate between flowers in this fashion,
 as the keeping qualities of the nectar
 might be interfered with if the loads
 from different species were mixed."

Myron's law says this: coax the liver
 into activity by gentle methods. They do
 not scour, gripe or weaken. They are a
 tonic to the stomach, liver and nerves;
 invigorate instead of weaken. They en-
 rich the blood and enable the stomach to
 get all the nourishment from food that it
 put into it. These pills contain no calomel
 and they are soothing, healing and stimu-
 lating. For sale by all druggists in 10c
 and 25c sizes. If you need medical ad-
 vice, write Myron's Doctors. They will

Stomach Ills May Seem Trifles

At the start, but that is when you
 want to take the matter in hand.
 Neglect can only result the one way
 —sickness. The stomach is largely
 responsible for one's health and
 strength and as such it needs to be
 kept in a normal condition. If it be-
 comes weak, the food remains undig-
 ested, ferments and causes untold
 suffering. Thus you lose the
 strength-giving properties of your
 food and you become weak and run
 down. This is very noticeable at the
 beginning of Spring when the sys-
 tem is overloaded with Winter im-
 purities, the bowels clogged and the
 blood thick. No wonder you have
 the "Spring Fever." Commence
 taking Hostetter's Stomach Bitters
 this very day and cleanse the entire
 system. Then your Stomach Ills will
 also vanish. It is for Sick Headache,
 Indigestion, Dyspepsia, Spring Fe-
 ver, General Debility and Malaria.

KASPARILLA

This sterling household remedy has
 long been recognized as the best and
 safest Blood Purifier, the most success-
 ful prescription for spring humors and such
 disorders of the blood as boils, pimples,
 pustules, blotches, sores and cutaneous
 eruptions. Kasparilla is admitted to be
 the best remedy for that lack of energy
 and the peculiar debility so prevalent
 during the close of winter and the opening
 of spring. For derangements of the di-
 gestive organs it is a natural corrective,
 operating directly upon the liver and al-
 imentary canal, gently but persistently
 stimulating a healthy activity. Its
 beneficial influence extends, however, to
 every portion of the system, aiding in the
 processes of digestion and assimilation of
 food, promoting a wholesome, natural
 appetite, correcting sour stomach, bad
 breath, irregularities of the bowels, con-
 stipation and the long list of troubles
 directly traceable to those unwholesome
 conditions. Kasparilla dispels drowsi-
 ness, headache, backache and despond-
 ency due to inactivity of the liver,
 kidneys and digestive tract. It is a
 strengthening tonic of the highest value.

The Youngest Admiral.
 Captain David Beatty will shortly
 have the distinction of being the
 youngest rear-admiral in the British
 navy. His forthcoming promotion
 at the early age of thirty-eight has
 been the subject of a special Order in
 Council.

To qualify for promotion under the
 regulations a captain must have served
 during peace time for a total period
 of six years. The Admiralty petition
 sets forth that, owing to the abnormal
 shortening of the time on the cap-
 tains' list, it is anticipated that Cap-
 tain Beatty will reach his turn for pro-
 motion before he completes the full
 period of six years.

It is also pointed out that he was
 severely wounded in action in China,
 and was consequently prevented from
 receiving an appointment for a con-
 siderable period.

In these circumstances the Order
 directs that Captain Beatty shall be
 promoted to flag rank in his turn, not-
 withstanding the regulations.

Captain Beatty is an Irishman. His
 wife is a daughter of an American
 millionaire, the late Marshall Field,
 founder of the great dry goods store
 in Chicago.

Nelson was promoted to the rank of
 rear-admiral in his thirty-ninth year.
