

OVER MILLION OF FEDERAL MONEY FOR OREGON

National Government Provides for Roads. Total of Which Would Encircle the Earth.

Washington, Nov. 19.—Seventy-five million dollars becomes available as federal aid for road construction in the various states, the money to be spent under the supervision of the bureau of public roads, department of agriculture, under the federal highway act signed by the president. In addition, \$15,000,000 is appropriated for national forest roads. The \$75,000,000 represents the government's appropriation to the work of building highways in the various states and must be matched, dollar-for-dollar, by funds from the state treasuries, except in states where more than 5 per cent of the area is unappropriated public land. The \$75,000,000 appropriated is for the fiscal year ending June 30, 1922,

and \$25,000,000 of the sum is available immediately, the balance becoming available on January 1, 1922. Here is how the money will be apportioned among the 48 states:

Alabama, \$1,553,420.67; Arizona, \$1,053,281.44; Arkansas, \$1,254,142.20; California, \$2,462,998.53; Colorado, \$1,341,175.89; Connecticut, \$480,897.78; Delaware, \$365,625.00; Florida, \$886,825.69; Georgia, \$1,997,957.58; Idaho, \$938,536.68; Illinois, \$3,246,281.07; Indiana, \$1,958,855.41; Iowa, \$2,102,872.74; Kansas, \$2,102,281.51; Kentucky, \$1,417,178.68; Louisiana, \$996,989.64; Maine, \$695,160.25; Maryland, \$640,629.01; Massachusetts, \$1,096,176.04; Michigan, \$2,249,532.43; Minnesota, \$2,123,597.07; Mississippi, \$1,294,906.22; Missouri, \$2,448,128.62; Montana, \$1,546,885.82; Nebraska, \$1,189,189.50; Nevada, \$953,436.78; New Hampshire, \$365,625.00; New Jersey, \$942,870.95; New Mexico, \$1,189,823.34; New York, \$3,696,447.97; North Carolina, \$1,709,333.90; North Dakota, \$1,164,714.42; Ohio, \$2,823,004.05; Oklahoma, \$1,752,339.44; Oregon, \$1,182,663.90; Pennsylvania, \$3,398,953.97; Rhode Island, \$365,625.00; South Caro-

lina, \$1,061,237.34; South Dakota, \$1,294,060.31; Tennessee, \$1,647,042.24; Texas, \$4,425,172.41; Utah, \$849,417.21; Vermont, \$395,625.00; Virginia, \$1,456,828.47; Washington, \$1,103,709.77; West Virginia, \$802,359.77; Wisconsin, \$1,894,815.86; Wyoming, \$934,617.63.

Of the appropriation of \$15,000,000 for the improvement of national forest roads, \$5,000,000 is made available for the fiscal year ending June 30, 1922, and \$10,000,000 for the following fiscal year.

The roads to be paid for by this money would, if placed end to end, encircle the earth and extend from San Francisco to New York on the second lap, the total mileage of the roads under construction and completed being reported by the bureau of public roads as 27,000 miles.

The average cost per mile of the roads built with federal aid has been between \$17,000 and \$18,000. More than half the money has been spent for roads with the highest types of surface, such as concrete, brick, and bituminous concrete, but a very large mileage of roads of the cheaper type, such as gravel and sand clay, has been

built where such types would withstand the wear of traffic.

It is estimated by engineers of the United States department of agriculture that the federal aid roads under construction on October 31 were giving employment to about 250,000 men, either directly on the actual construction or indirectly in the production and transportation of the materials which enter into the construction.

Lane county's state tax will be \$373,260.70, according to official information received by County Clerk R. S. Bryson from the state tax commission.

This is \$1,400 less than estimated in the county budget and \$1,384.70 less than this county's share of the state tax last year.

Herbert Walker, county assessor, figures that a levy of 10.75 mills will be required to raise this amount.

The Lane county state tax is over \$10,000 greater than that of last year, according to information received from Albany, but the reason for this is not given. No information has been received from other counties.
