

Unshaken Testimony

Time is the test of truth. And Donan's Kidney Pills have stood the test in Cottage Grove. No Cottage Grove resident who suffers backache, or annoying urinary ills, can remain unconvinced by this twice-told testimony.

A. Rogers, retired farmer, 706 Chestnut Ave., Cottage Grove, says: "I have taken Donan's Kidney Pills off and on for several years and they have always done good work. I was subject to kidney troubles and at times I had difficulty in retaining the kidney secretions. A box or so of Donan's Kidney Pills always regulate my kidneys." (Statement given March 27, 1916.)

On March 27, 1920, Mr. Rogers said: "There is nothing better for kidney trouble than Donan's Kidney Pills as they have always helped me when I have had need to use them."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Donan's Kidney Pills—the same that Mr. Rogers had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. m31a7

CONCERNING COUNTY TAXES.

Eugene, Ore., April 1.—(To the Editor.)—On account of the present agitation in regard to the high taxes and wishing to find out for myself if the county court was in any way to blame for our increase in taxes, and also to have some evidence to place before the tax commission when it meets here on April 26, I concluded to make a comparison of county and state expenses as between 1914 and 1921. I found, however, that 1914 was a high year as far as county expenses were concerned, and, in order to be fair, thought it best to make a complete comparison from 1914 to 1921 inclusive, and herewith submit statement as taken from the county clerk's records. These figures do not include any special taxes voted by the people:

Year	Valuation	Mills	State	Mills	County	Total
1914	\$39,581,222	18	\$169,407	10.089	\$543,055	\$712,462
1915	39,877,856	15½	144,513	7.908	451,089	595,602
1916	39,777,265	15	135,640	8.052	461,018	596,658
1917	30,325,458	17½	112,659	9.59	418,036	530,695
1918	34,800,516	14½	117,486	8.134	387,121	504,607
1919	35,091,711	14.6	122,634	7.822	389,704	512,338
1920	35,021,698	18.675	176,096	8.3972	477,942	654,038
1921	34,874,976	24.2	374,645	8.142	469,329	843,974
1922	34,746,477	25	373,281	8.9096	493,404	866,685

(Balance due state highway commission for 1920, per statement, \$63,031.) You will note that our valuation was above \$39,000,000 until after 1917, when the O. & C. land was taken off the tax list. In October, 1917, the county received \$276,975 back taxes on this land which materially reduced the amount of money necessary to be raised by taxation for the years 1918 and 1919. In 1920 we raised our first market road money, one mill, raising \$35,000. In 1921 it was raised to 1.607 mills, raising \$56,935. Our budget for 1922 calls for 1.65 mills, raising \$57,331.69. The market road money adds considerably to the expense of the county, but it is necessary in order to get a like amount from the state.

In 1922 we are returning to the cities the same ratio that we are giving the districts for road purposes, which will amount to about \$25,000.

Before coming into office January 1, 1921, I was informed that there was quite a large sum of money due the state highway commission for work done and materials furnished during 1920 and perhaps 1919, and in December, 1920, I asked the state highway commission for a statement as to money due from Lane county January 1, 1921. It was some time after this that I received an itemized statement showing about \$101,000 due the state highway commission from Lane county. This was reduced by credits for work done during this time and money paid by the Southern Pacific company for its share of some of the construction to \$63,031.54, where it now stands. No part of this account has been paid and for that reason it does not appear on any of the county books.

Comparing the county court's personal expenses, I find that the cost of the court, including salaries, in 1919 was \$5,957; in 1920, \$5,203.70, and in 1921, \$5,127.45.

In regard to the payment of warrants, I find that the December call for 1920 included up to September 16, 1920. The December call for 1921 included up to September 17, 1921, which would indicate that the county's finances are in practically the same condition in December, 1921, that they were in December, 1920.

In summing up the situation and taking into consideration the increase in wages and expenses, which is conceded to be about 35 per cent in commercial lines but seems to be somewhat less with regard to county employees, it appears that the county's expenses are not increasing in proportion to the business which is handled by the county court and office forces.

C. P. BARNARD, County Judge.

J. Martin and Mrs. Joe Hefflin, of Row River.

Quite a number from here attended the ball game at Stewart's field Sunday between Chambers' camp and Row River.

The Danger Point in trying to save on painting Repairs Cost More Than Paint

WHEN the paint on your property begins to check and crack, it is time to paint again. Unless your house is protected by a smooth, elastic film of durable paint, decay will set in and rapidly depreciate it.

Decay is expensive and wasteful. Price lumber alone, to get an idea of what it will cost to repair or rebuild. Paint saves this cost.

The best paint is the most economical in the long run. It spreads easily—saves labor cost. It covers a larger area per gallon than "cheap" paint.

But most important, the best paint serves five or more years longer than "cheap" paint.

We have been making the best paints for 73 years. They are scientific in formula and preparation. They

meet the weather conditions in the West.

They contain the finest materials—PIONEER WHITE LEAD, pure linseed oil, pure zinc and pure colors—combined scientifically in exact proportions. They are the best paints we know.
