

## What Magladry's Employes Think of Him

TO THE VOTERS OF LANE COUNTY

Row River, Oregon, April 8, 1922.  
We, the undersigned employes of The Bohemian Lumber company, and their families, having a very high regard for J. S. Magladry, one of our employes and former manager, and wishing to do all possible to assist him in his candidacy for republican nomination as state senator, do, regardless of party affiliation, hereby recommend him to the voters of the county for the following reasons:

He has always been fair and square with his employes, never making a promise that he did not fulfill. We feel that he is one of us, because he has always so conducted himself in his business. He would and could always jump in and help out a man, no matter what the emergency, or the nature of the job.

He has always shown an interest in the welfare of our families in sickness and misfortune, and in every way proven himself as a real man;

He is a man of unusual ability, which has been demonstrated by being able to keep his plant in continuous operation during the strenuous period of 1921, when many better equipped plants were unable to operate;

We look upon Mr. Magladry as a man who can not only represent the interests of the farmers and the common people, but the larger interests of the state as well, and, therefore, we know him are pleased to take this opportunity to recommend him to the voters of Lane County as a man who

will make a real senator of whom no one will be ashamed.

## PENSION LAW OF INTEREST TO SPANISH WAR VETERANS

If you served 90 days or more in the Spanish-American war, the China relief expedition or in the Philippines prior to July 4, 1902, you will be interested to know that congress has passed a pension law of vital interest to you. This law contains two provisions: First, it allows pensions to all ex-soldiers, sailors and marines with the above service record who were honorably discharged and who are now over 62 years of age. Second, it allows pension to those who are at present materially disabled from earning their living by manual labor from disease, if the disability be not the result of their own misconduct. Such disability must be permanent but need not be total. If need not be the result of military service. The soldier does not have to be 62 years old to claim on disability. The amount of pension depends upon the degree of disability and ranges from \$12 to \$30 a month. Widows of veterans are also allowed pensions.

If you wish advice about this law write Walter S. Buchanan, Post National Aide-de-Camp, Army and Navy union, Route 2, Louisa, Va. Prompt action is desirable, as a pension, if allowed, begins from the filing of the claim. In writing, give service record and enclose stamp for reply.

## It Costs You More to rot buildings than it does to let paint save them

CHECK the costs. Compare the prices of lumber and paint. They will show you how extravagant it is to allow buildings to depreciate for lack of paint.

And buildings do depreciate rapidly unless they are painted when they need to be. Paint saves the lumber. It protects your investment.

To enjoy the biggest saving in painting, use the best paint. It spreads more easily—saves labor cost. It covers more surface per gallon than "cheap" paint.

It serves five or more years longer than "cheap" paint.

The best paint is most economical because it is scientific in formula and preparation. We have been making best paints for 73 years.

They contain the finest materials. Our white lead, for instance, is PIONEER WHITE LEAD. It is super-purified and ground so fine that it will pass through a silk screen with 30,000 meshes to the square inch.

So with the other materials—pure linseed oil, pure zinc and pure colors—all of the finest quality, combined in Fuller's Paint in scientifically exact proportions with long-time skill.
