"The Old Reliable"

To the Tire Trade:

Something entirely new in the merchandising of Tires, which may revolutionize the industry, has been coming to the front with rapid strides, within the last six months.

Under the Culp plan, the entire output of several factories is bought and the following are some of the items of selling expenses that are eliminated. Salesmen and sales managers and their expense sheets, transportation and automobile costs, district branches, factory branches, local branches, warehouses and their attendant labor, rent, telephone, taxes, insurance, etc., credit, long distributor's profit, sixty-foot road signs, etc.—SOME little elimination.

Tires are from old well established tire factories and all have enviable reputations back of them. Inspectors are put in each plant to see that the quality standard is maintained.

When in need of a tire, call and see these tires at our store. Compare prices and quality with other tires.
