This Value Has Never Been Duplicated

It takes something besides engineering to furnish a tractor like the Fordson to sell at this astonishingly low price.

That something is owner confidence built on permanent satisfaction. There are 170,000 Fordson tractors in use—wherever Power Farming is being done Fordson is showing superior service.

If you are not using a Fordson now, start right. The working ability of this remarkable power plant is cutting farming costs in half in almost every kind of work done, at the draw bar or from the belt.

Sentinel Wantads will do most anything within reason—and some things that are not. Try one.

You may increase your engine power 20%

Too heavy an oil, or one lacking in certain qualities, may reduce the power delivered to the wheels of the automobile as much as 20%.

The ideal oil is the thinnest oil which will keep the bearing surfaces of the mechanism separated.

Providing this oil has "oiliness," stability and purity, it will give perfect lubrication, and permit the development of the maximum power, speed and gasoline mileage of the car.

"Oiliness" — Stability — Purity

Zerolene meets the conditions perfectly. It has great "oiliness," due to the crudes from which it is made, and our own patented process of high vacuum distillation.

It has great stability, as a result of which it resists engine heat and forms only a minimum of carbon of a soft, flaky nature which blows out with the exhaust.

And it is pure. This company has always considered the removal of all detrimental properties and compounds as essential in making Zerolene.

Zerolene of the correct grade gives perfect lubrication and permits the development of the maximum power, speed and gasoline mileage of the car.
