**BIG POWER for BIG TRUCKS**

If you want to keep your truck trouble-proof, feed it "Red Crown" and nothing else.

The quality of "Red Crown" is always the same, whenever and wherever you buy it. It vaporizes rapidly and uniformly in the carburetor. And it is consumed completely in the combustion chambers, converting all its heat units into power at the driving wheels. That means a better average mileage, and a sweeter-running engine.

Fill at the Red Crown sign — at Service Stations, garages, and other dealers.

**STANDARD OIL COMPANY (California)**

**Outing Flannel**

The season for this staple is now here. Strikes in the mills of the east have been shortening the output since last April. Most of the orders for outing flannel have not been filled at all. Prices for the little good outing flannel that is being produced have advanced from two to four cents per yard. About all the outing flannel that is being delivered is poor, thin loosely woven stuff from the second class mills.

We have received our order for outing flannel in full. The quality is **FIRST CLASS**, like you bought before the war. We think no other store in Cottage Grove has as good a grade.

Our stock of outing flannel is complete both in the wide and narrow widths and we have not advanced our prices.

Purchase NOW, as later there will be a scarcity and prices will be higher.
