FARMERS OPPOSE TAX FOR McVEIGH CROSSING

Replying to resolutions passed by the Lane County Farmers' union objecting to a tax for the payment of the sum of \$12,000 to the state highway commission for funds expended in the construction of the McVeigh Point overhead crossing, Judge C. P. Barnard has issued a statement showing that the obligation must be met by the county and that it cannot be paid for out of the market road fund because the county has been enjoined from using that fund for such purposes.

The following is the resolution passed by the Farmers' union: "Be it resolved that the members of the Lane county Farmers' union are not in favor of being taxed for the \$12,000 market road money used on McVeigh point as we believe the county has no right to use the money for other than market road purposes. Be it further resolved that a copy of the resolution be presented to the Lane county court.

H. C. JACKSON, Secretary-Treasurer.

The statement of Judge Barnard is as follows: "The public service commission, after going into the matter thoroughly, ordered an overhead crossing. The Lane county court was very insistent on an undergrade crossing, which they thought would be fully as good as this location, and the county's share would only have been \$12,000, whereas our share in the regular way, would have been \$24,000. We objected so strongly that the state highway commission and the public service commission finally agreed to accept \$12,000 as a total cost to Lane county for the crossing, provided we allow the state highway commission to build the crossing as they saw fit, which was done, and which will probably cost them completed about \$80,000.

In regard to paying for this out of market road money would say that it seemed to be the only money available, as there was no bond money placed on this particular road and it is a debt which must be paid, and there is no way of the county repudiating the debt, nor should they, as we are certainly paying no more than our share of the cost of this structure. The market roads in our county are being largely built with bond money and as the courts have ruled we cannot use market road money on the state highway, it will be necessary for us to pay this bill out of the general fund, but we will not increase the levy unless absolutely necessary. If we are compelled to follow the strict letter of the law it will be impossible for us to use the money on our co-operative jobs with the state and federal government as they insist on building roads according to their own plans and specification and under their own supervision, the county simply paying their share of the cost.

This is not according to the road bond law, (section 4637), 1921, which says that roads built under the bonding act must be built by the county court, under its exclusive jurisdiction, which would prohibit our taking advantage of the co-operation we receive with the state and federal government, and any person, if they saw fit, could join us from making an agreement; for instance such as we made with the federal government on the Blackly-Rainrock section of the Eugene-Florence highway, and all corresponding agreements, so you see how difficult it is for the county court to keep strictly within the law and at the same time get the best results with the county money.

2 MORE LIBERTY TRUCKS LOANED COUNTY BY STATE

Two Liberty motor trucks, from the equipment turned over to Oregon by the United States army, will be loaned to Lane county for use in road building. The county now has six army motor trucks which it is working to capacity and the two additional vehicles can be used handily.

Surveying of the Goshen-Lowell and Lowell-Summit section of the Willamette highway, which was to have been done this year by the state, has not yet been started and Judge C. P. Barnard, who is in Portland this week, will make efforts to have the surveying started.

Canadian Wrestler at Arcade.

"Moose" Norbeck, Canadian light-heavyweight wrestling champion, appeared at the Arcade theater Wednesday night and last night as an added attraction to the regular picture program. A feature of his exhibition was an offer of a dollar a minute for any wrestler who would stay with him ten minutes on the mat. Ralph Hand, local mat favorite, accepted the offer and easily stayed the allotted time Wednesday night. The big fellow made a determined effort but couldn't make the grade, and himself nearly lost a fall by the hold route. Norbeck offered Hand a dollar a minute to meet him again last night, but the event had not transpired before the paper went to press.

—a few merchants, and the number is getting fewer every day, have the idea that they are so well known that they do not need to advertise.

—the merchant who takes this view is taking a different view than those who do the buying and he will note that the advertisers are enlarging their stocks and business each year while his remains the same or are dwindling, and those who know him so well are doing some of their trading with the fellow who uses the newspapers to ask them to come there to trade.

—no merchant can afford to cater only to old customers, especially in the west, where populations change so rapidly.

—a growing business must seek new trade.

—advertising will bring new customers and keep the old ones interested.

Outing Flannel

The season for this staple is now here. Strikes in the mills of the east have been shortening the output since last April. Most of the orders for outing flannel have not been filled at all. Prices for the little good outing flannel that is being produced have advanced from two to four cents per yard. About all the outing flannel that is being delivered is poor, thin loosely woven stuff from the second class mills.

We have received our order for outing flannel in full. The quality is FIRST CLASS, like you bought before the war. We think no other store in Cottage Grove has as good a grade.

Our stock of outing flannel is complete both in the wide and narrow widths and we have not advanced our prices.

Purchase NOW, as later there will be a scarcity and prices will be higher.
