

## Money Saving is Money Making

THE FIRST PRINCIPLE OF MONEY-MAKING IS MONEY-SAVING. You can't make money unless you have money. The only way for people of moderate circumstances to get money is to save it.

To enable you to save, we open SAVINGS ACCOUNTS of \$1 or more. If you have but a single dollar a week, this small sum will grow to \$644 in ten years.

Our depositors are given a Nestegg Bank for home saving, with a deposit of \$1. They're handy and help you save much more.

Kryptok Glasses, the invisible bifocals, are double vision glasses without the lines or humps so conspicuous on the lens surfaces of all other bifocals.

Try Kryptoks for awhile and you will never willingly return to old style bifocals.

We always recommend them where bifocals are needed.
