

Money Saving is Money Making

THE FIRST PRINCIPLE OF MONEY-MAKING IS MONEY-**SAVING**. You can't make money unless you have money. The only way for people of moderate circumstances to get money is to save it.

To enable you to save, we open **SAVINGS ACCOUNTS** of \$1 or more. If you have but a single dollar a week, this small sum will grow to \$644 in ten years.

Our depositors are given a Nestegg Bank for home saving, with a deposit of \$1. They're handy and help you save much more.

Save Your Eyes

The exact methods used in our examinations reveal all errors of refraction in the human eye. We then supply from our own workshop the exact kind of lenses required in each particular case.

Perhaps you are suffering headaches or other physical discomforts because of ill-fitting glasses. Our lenses relieve eyestrain, correct errors of vision and improve your eyesight.

Let us care for your eye needs. We will treat you fairly.

Off Summer Pastures

As your animals come in off the pastures they'll miss the tonics and laxatives which nature supplied to keep them in condition. It's a big change. You must supply what is lacking in the dry feed—hay, grain and fodder—or they will get "off feed" and out of fix.

Dr. Hess Stock Tonic

Supplies the Tonics—Laxatives—Diuretics

It keeps animals free from worms. It keeps their bowels open and regular. It keeps the appetite and digestion good. It helps to keep up the milk flow. It keeps feeding cattle right up on their appetite. It keeps huge healthy, thrifty, free from worms. It means health and thrift for all animals.

KNOWLES' PLATFORM.

Cottage Grove, Ore., Oct. 21.—(To the Editor.)—It appears that quite a few people insist that a candidate for the legislature shall have a platform. Knowing that if elected I will have to work with approximately 59 other men and women, some of whom may be almost as smart as I am, and believing that the history of progress has been largely a history of compromise on the part of legislators as to the best means to accomplish certain desired ends, I am unable to be very specific as to my platform. Here, however, are the ideas that will govern my actions if elected:

Quit issuing more bonds to pay for improvements unless there is a real emergency.

Make a greater effort to tax what is commonly termed "hidden wealth."

Take care of what we now have to the extent of keeping everything up to a reasonable standard of efficiency. I refer especially to state institutions and highways.

Now there seems to be quite a few people who insist that the main issue is the candidate's attitude on the Compulsory Education bill. I am not able to see it in that light, but if others do and want to vote for or against me according to whether I promise to vote for or against this bill, I shall certainly give them the privilege. I shall vote for the bill.

GEORGE O. KNOWLES.
