

# Progressive Times

This is the day of the forward march. No farmer would now attempt to harvest his wheat with an old-fashioned cradle, nor thresh his grain with an old horse-power machine.

There's the new radio outfits, the airplanes, wireless telegraphy, submarines, hydro-electricity—a hundred new things every decade. And in money matters, are we keeping step? Most of us are. We keep a balance at the bank and pay our bills by check, instead of keeping our money somewhere about the house, subject to loss every day. Our modern bank invites you to do business the modern way.

### Service

means our detail attention to our customers.

I have the most scientific eye testing instruments in the optical field today.

My method of vision examination is used and endorsed by the highest authorities in the profession.

My work combines that of the Optometrist and Optician. I prescribe, grind and fit my own glasses.

The responsibility is mine, the comfort and satisfaction are yours; my glasses are right by the most careful and exacting test to which your eyes can be put.

## Off Summer Pastures

As your animals come in off the pastures they'll miss the tonics and laxatives which nature supplied to keep them in condition. It's a big change. You must supply what is lacking in the dry feed—hay, grain and fodder—or they will get "off feed" and out of fix.

### Dr. Hess Stock Tonic

Supplies the Tonics—Laxatives—Diuretics  
It keeps animals free from worms. It keeps their bowels open and regular. It keeps the appetite and digestion good. It conditions cows for calving. It keeps feeding cattle right up on their appetite. It keeps hogs healthy, thrifty, free from worms. It means health and thrift for all animals.
