

Progressive Times

This is the day of the forward march. No farmer would now attempt to harvest his wheat with an old-fashioned cradle, nor thresh his grain with an old horse-power machine.

There's the new radio outfits, the airplanes, wireless telegraphy, submarines, hydro-electricity—a hundred new things every decade. And in money matters, are we keeping step? Most of us are. We keep a balance at the bank and pay our bills by check, instead of keeping our money somewhere about the house, subject to loss every day. Our modern bank invites you to do business the modern way.

Bank of Cottage Grove

Service

means our detail attention to our customers.

I have the most scientific eye testing instruments in the optical field today.

My method of vision examination is used and endorsed by the highest authorities in the profession.

My work combines that of the Optometrist and Optician. I prescribe, grind and fit my own glasses.

The responsibility is mine, the comfort and satisfaction are yours; my glasses are right by the most careful and exacting test to which your eyes can be put.
