HEAVY TOURIST TRAVEL FROM EAST PREDICTED

Tourist travel to the Pacific coast this fall and winter will be the greatest in years, is the prediction of Chas. S. Fee, passenger traffic manager of the Southern Pacific company, who is now on an extended trip through the east obtaining first-hand information on traffic conditions. Mr. Fee's forecast is supported by reports received from Southern Pacific general agents throughout the United States and abroad and all point to an unprecedented travel to the Pacific coast this winter. Greatly improved business conditions all over the country, bumper crops in the middle west and Canada and reduced fall and winter tourist fares to the Pacific coast are some of the important factors that have induced travelers to come to the Pacific coast for the winter.

The summer tourist season just over was one of the largest in years and reports from the Southern Pacific company show that during the 1922 season 215,476 people came to the Pacific coast on summer tourist tickets over Southern Pacific lines alone. This number was an increase of 91,627 or 73.4 per cent over the 1921 summer tourist travel and was in addition to the thousands of passengers who came on regular tickets.

Tourist travel from Canada to the

Pacific coast is also expected to break all records, according to Mr. Fee. This is due perhaps to the fact that business conditions in Canada have undergone a big improvement. Canadian money has increased in value until it is now on a parity with United States money and the Canadian farmers are harvesting the greatest crops in years.

THINGS WE THINK

Things Others Think and What We Think of the Things Others Think

Cowardice is reprehensible—but just imagine what this world would be without fear.

When the tube woman gets togged out in all the latest finery she certainly will be a pipe dream.

Down in Central America they have revolutions instead of presidential elections—and find it cheaper.

A couple of airplanes went up in the air 3000 feet and cooked celery, consommé and terrapin. The menu sounds as if they knew the proper bill for high fivers.

The man who agrees to everything you say is not entertaining company.

Beauty is only skin deep—and most beauties are thin-skinned.

There is no drifting along in this life. If you don't face yourself ahead, the whirlpool made by those who are forcing themselves ahead will carry you backward.

Nine thousand fathoms of water at the north pole. It's a wonder the old stiek doesn't get waterlogged.

A preacher is in a bad position when he has to get his salary from those his sermons must criticize if his work is to have results.

Doesn't it make you feel cheap to tell a good story to a friend, only to have him remind you that he told you the story in the first place?

A New Jersey farmer has started suit against an airship owner for trespass—but the chances are it will be found that there are no grounds for such an action.

Do not look for the bad in your neighbor—rather look to see how far he is emulating the good example you are setting him.

Another get-rich-quick artist is in jail. After he had sold \$1,500,000 worth of stock in a wireless company, someone discovered that all he had was the air to send the messages through and he delivered to each stockholder his share of that commodity just previous to selling him his stock.

The increased cost of living doesn't seem to have made any difference to the bedbug.

Late authorities on algebraic problems tell us that men should marry the hustling type of girl. Girls are willing to hustle for a man that wants that kind of a girl.

No man who would make the most of an opportunity waits for the opportunity.

The city man longing for a little patch of ground can call his own does not understand why boys want to leave the farm.

If ice cream made freckles and hanging on front gates produced rheumatism, as a scientist claims, what a bunch of homely crippled damels this town would have!

There are some people who do not make mistakes—but they don't amount to enough to get their names in the papers.

More people go to church because they think they ought to than because they want to.

A new fashion in dress is for women to wear electric lights—just as if the men didn't see enough already.

The health of the nation is said to cost \$150,000,000 a year. Those are pretty healthy looking figures anyway.

By taking 530 eminent men and women as a basis it has been proved that brain workers are long-lived. On the supposition that this test would show like results with mankind generally, we may soon expect to receive black-bordered announcements from relatives of many members of our legislature.

The man who is a burden to himself usually doesn't stop there.

You'd see how much a woman thinks of her hubby if you read the same things about him that she herself does.

A young woman usually looks for points of resemblance between her sweetheart and the hero in the book she is reading.

It doesn't make so much difference what you do just so long as you don't get "done."

The man who is invited to his wife's kisses doesn't let the stibble grow on his face.

Sixty-one languages are spoken in South America—which is any account for the fact that so many of the revolutions are just talk.

Indigestion Gone and She Gains Ten Pounds

"Tanlac has relieved me of troubles from which I suffered for years, and I am feeling fine now," declared Mrs. Kate Langlands, of 7228 2nd Ave., S., Seattle, Wash.

"I had rheumatism in my limbs so bad I could hardly get around. I suffered dreadfully from indigestion, too, and food fermenting in my stomach caused terrible bloating, headaches and dizzy spells. I was so nervous, and miserable at night that restful sleep was out of the question and I got so weak and run down it was all I could do to look after my household."

"Tanlac has so completely rid me of indigestion that I can eat anything I want now and I have gained around ten pounds. I'm entirely free from headaches and dizziness, and the rheumatism is so nearly gone I never notice it. I don't believe Tanlac has an equal anywhere."

Tanlac is sold by all good druggists.

Weak, Weary Women

Learn the Cause of Daily Woes and End Them.
When the back aches and throbs, when housework is torture, when night brings no rest or sleep, when urinary disorders set in, when a woman's lot is a weary one, Doan's Kidney Pills are for weak kidneys.

These proved their worth in Cottage Grove.
This is one Cottage Grove woman's testimony:

Mrs. W. S. McCaleb, 747 S. Second St., says: "I had weak kidneys and suffered with inflammation of the bladder and also was nervous and became run down and languid. I had no energy and often neglected my household work. The action of my kidneys was too frequent until I used Doan's Kidney Pills for these attacks. They soon helped me and I felt stronger and better in every way. My energy was restored and I was free from the tired feeling."
