BLACK BUTTE

(Special to The Sentinel.)
Nov. 21.—Misses Dura and Dorothy Funk spent the week end in the Grove at the home of their sister, Mrs. Glen Jenkins.
Miss Emma Jones returned Friday from a visit with relatives at Creswell. Mr. and Mrs. Thos. Funk and children motored to the Grove Sunday evening.
Pupils of the Black Butte school are having hot lunches now, an innovation that will be continued throughout the winter.
Miss M. Bohart visited at the Thos. Funk home Monday evening.
Harry Garman has purchased a Ford car.
Bonnie Perini spent Saturday night and Sunday with his parents at Divide.
Miss Rosie Willis spent the week end in the Grove with her sister, Mrs. William Hopman.
Leslie and Clifford Grant spent Saturday evening at the Thos. Funk home.
Mrs. Susan Walker, visited Sunday with her brother, William Jones, of London.

LYNX HOLLOW

(Special to The Sentinel.)
Nov. 21.—Mr. and Mrs. Frank Mackle visited Sunday at the home of their daughter, Mrs. Melvin Jackson.
The Briggs Lumber company has been getting out lumber for the new gymnasium at the Walker high school.
Mr. and Mrs. Marlon Lebow and the Fletcher England family spent Sunday at Dorena with the Lowry England family.
Mr. and Mrs. E. Y. Porter went to Eugene Sunday and brought Mrs. Porter's brother, M. A. Horn, back to his home, in Delight Valley. Mr. Horn underwent an operation for appendicitis several weeks ago.
The A. B. Wolford family spent Sunday with Mr. and Mrs. Harvey Strong near Cottage Grove.
The Y. A. H. club meets this week with Mrs. W. A. Ronne.
E. T. Hartley shipped a carload of wood the first of the week.
The Ajax Lumber company moved a rock crusher in last week and hope soon to have their road in condition to commence hauling lumber to the railroad.
Mrs. D. P. Caldwell and two daughters were guests of Mrs. Dresser Sunday.

There is much talk about referring judicial procedure. It seems to us the procedure is all right if they would only proceed.

J. S. Seerist, fifty, a brakeman on an Oregon electric passenger train operating between Portland and Salem, was found dead in an ice and storage plant at Salem, following a moonshine liquor party.

Fine weather and the strong demand for logs have induced the logging operators in the lower Columbia river district to force operations to capacity. Every logging camp in that section is running, the one handicap being the scarcity of loggers.

The annual meeting of the Western Forestry and Conservation association, which will bring together prominent forestry officials and experts from Oregon, Washington, Idaho, Montana, Utah and northern California, will be held in Portland Friday and Saturday.

Representative McArthur has announced the appointment of Lynn M. Reed and Clarence S. Howe, both of Portland, as cadets from the third Oregon district to the United States military academy in lieu of Carter B. Magruder and George C. Margens, both of Portland, who are to be graduated in June, 1923.

There were two fatalities in Oregon due to industrial accidents during the week ending November 16, according to a report prepared by the state industrial accident commission. The victims were Robert Hillstadt, choker setter, Deer Island, and William Bruder, mechanic, Salem. A total of 594 accidents were reported.

John C. Kendall, president of the Marshfield chamber of commerce, has presented to the Roseburg chamber of commerce plans for a big celebration to be held at Coos Bay during the latter part of July of next year, to dedicate the Roseburg-Coos Bay highway and to stimulate interest in the development of the western part of Oregon.

That it pays to maintain a traffic officer in Lane county is shown by the amount of fines collected during the past seven months from violators of the highway laws. Sheriff Stickels, reporting to the county budget committee, said \$2322.79 in fines collected from drivers of automobiles and trucks in that time had been turned over to the county treasurer.

Discouraged by failure to get fair returns on their investments, or to dispose of either grain, hay or livestock at a profit, no less than six prominent and formerly prosperous ranchers in the Haines section of the Powder River valley have held public auctions of their stock and farm equipment and abandoned what they term a futile effort longer to succeed at ranching.

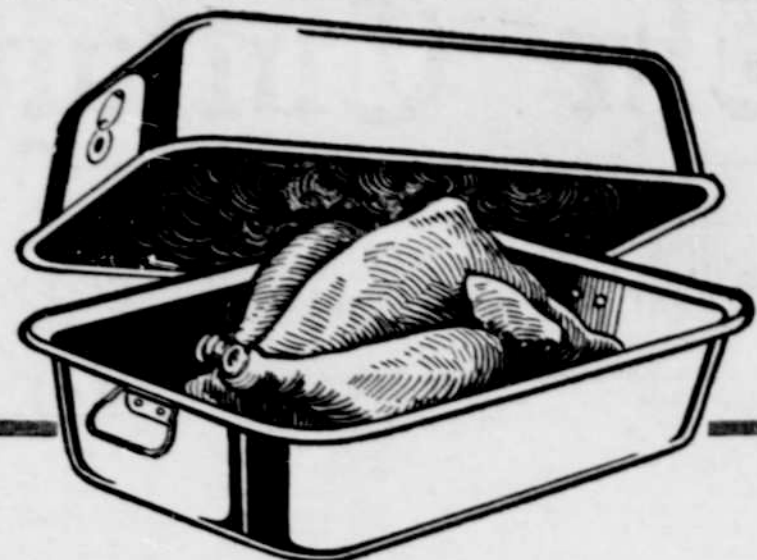

Due undoubtedly to the car shortage, production of the 143 mills reporting to the West Coast Lumbermen's association for the week ending November 11 fell 2 per cent below normal. New business was 5 per cent below production and shipments were 7 per cent below new business. In 45 weeks production has been 2,802,556, 279 feet; new business, 3,598,272,274 feet; shipments, 3,535,130,795 feet.

Approximately 187,000 pounds of English walnuts have been received at the warehouses of the Oregon Growers' Co-operative association of Salem this year, according to a report prepared by the officials of the association. There also have been received 3000 pounds of filberts. The growers have been offered approximately 26 cents a pound for their product, and will receive an aggregate of \$30,000.

The assessment of all property in Oregon, together with the ratio that the taxable property in the counties will bear to the full cash value in 1923, based on the 1922 tax rolls, has been determined by the state tax commissioner. The assessment, according to the report prepared by the commissioner, will be approximately \$8,000,000 lower than for the present year, while the ratios will be practically the same as fixed for the year 1922. The most drastic reduction in assessments is in Multnomah county.

The construction of a \$5,000,000 hydro-electric plant at Reclamation power site on the Deschutes river, was forecast at Portland by Guy W. Talbot, president of the Pacific Power & Light company, in a statement announcing the corporation's plans for a new link in the electrical energy chain of the northwest. The site of the project is 15 miles south of the confluence of the Deschutes and Columbia rivers and the company has filed application for the use of the site and the development of 10,000 horsepower. Preliminary surveys and tests already have been made.

Receipts on the Columbia river interstate bridge during the last ten months amount to \$234,000, according to a statement prepared for the bridge commissioners. This is \$23,000 less than for the same period in 1921. The Pacific highway north of Vancouver, Wash., was closed last summer and traffic used the ferries at Kalama and Kelso. The receipts for October amounted to \$28,028, which equals the previous record for this year. Clarke county's share of the bridge income since January 1 is \$80,007, while Multnomah county received \$120,010. The operating expenses in the ten-month period amounted to \$33,984.

For the Thanksgiving and Xmas Turkey and for a half dozen everyday uses you will want a "Wear-Ever"

Aluminum Roaster

Poultry and meat roasted in the "Wear-Ever" Roaster retain their juicy and nutritious sweetness which is lost if exposed to the dry heat of an open pan in the oven, or to the uneven heat of an ordinary roaster.

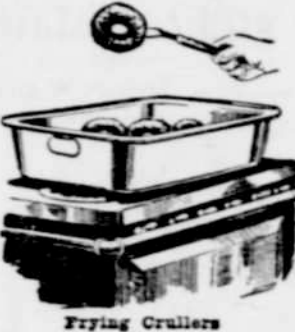

"Wear-Ever" aluminum spreads heat rapidly. Therefore the "Wear-Ever" Roaster heats on all sides—even on the part farthest from the oven burner. The roast or turkey is cooked to tenderness all through, and then can be finished to a golden brown by removing the cover a few minutes before taking from the oven. The Roaster may also be used on top of the stove over one burner.

Every day in the year
you can use the "Wear-Ever" Roaster for baking, frying, roasting, or for canning.

Like other "Wear-Ever" utensils, the Roaster is made seamless from extra hard, extra thick sheet aluminum. It will not burn out, scale or rust. Many "Wear-Ever" Roasters have been in use for twelve years.

Measure your oven today for a "Wear-Ever" Roaster. We have them in all sizes.

A woman sometimes makes herself look old by worrying about how to keep young.

The Portland Oregonian complains that those Silver Lake bachelors who are sending east for wives are not boosters for the Made-in-Oregon movement. The Oregonian is judging too quickly.

It is almost as easy to remember the things you ought to forget as to forget the things you ought to remember.

Investigation reveals the fact that there is enough coal to last 8071 years. There are some folks who need not worry about how they are going to keep warm even after that time.

A father is supposed to make a man of his boy, but it frequently happens that the boy makes a man of his father.

Every woman thinks she has the best man on earth. We would like to know what her opinion must be (founded upon experience) of the mere average man.

Bread! Bread! Bread!

THE STAFF O' LIFE

AT A 20% SAVING TO YOU

The reason is obvious—Like a thunderbolt out of a clear sky came the discontinuance of our delivery system. This condition has left us with a lot of surplus flour which we wish to turn into cash. Therefore, fresh bread daily will be sold at the following prices:

"Home Made" loaf at 8c

"Everyday" loaf at 12c
