

DO NOT FORGET THAT FRIDAY, THE  
15TH—TODAY—IS

# Billion Dollar Day

The government has called all 4 3-4% Victory notes which bear the distinguishing letters A, B, C, D, E and F before the serial number. Interest on these bonds ceases on the 15th—today. This bank will be pleased to pay you full cash value with interest to date of call. Cash service over the counter or credit to your account, commercial or savings, as you prefer. No delay. We are taking them now.

### Poultry Pointers From O. A. C.

Range and exercise are especially desirable for poultry breeding stock.

Egg size and shape are inherited. Gradual selection of those birds which, in addition to a large number, also lay "selects" will in time eliminate the birds laying the lower grade eggs.

Egg shell color does not affect the food value of eggs, but it does make a difference in the appearance. All brown or all white eggs will command the highest price.

Six roosters with each 100 hens should give good fertility and hatching ability with Leghorns.

An extra rooster is more desirable than one too few. Often sickness or accident takes one of the number and poor hatches result.

A New England town has a women's club which proposes chloroforming all bachelors over 50 years of age. Chloroform would have no effect on the heart of a man which has been unaffected by the love germ for that length of time.

Rumors are afloat again that the coal supply is nearly exhausted—but as long as a benign congress permits the Congressional Record and miscellaneous publications to be franked through the mails, the populace refuses to get excited over predictions of a lack of cheap fuel.

Don't growl about things that don't go right—but don't be satisfied with something that can be done better.

Just because you can't see your own children's faults is no sign that you need the services of an oculist.

If women of a hundred years ago could see their great-granddaughters of today they would think they must have married a lot of stingy husbands.

### Mr. Family Man—Keep a Cow in Town and Reduce Your H. C. L.

—you can do it by feeding Sterling Dairy Feed. We keep scale records of the milk our cow produces and find there is a good profit in it. Following is the result of our records—and our cow has been milking over a year:

1 sack Sterling Dairy Feed (lasts 9 days).....	\$1.50
Hay, 30c per day (estimated).....	\$2.70
Total cost of feed for 9 days.....	\$4.20
Number quarts of milk produced in 9 days.....	107
107 quarts of milk at 12c per quart.....	\$12.84
Less total cost of feed.....	\$ 4.20
Net profit for 9 days.....	\$ 8.64
Net profit per day.....	\$ 0.96

**Sterling Feed Company**
