

## Opportunity Knocks at Every Man's Door

The opportunity to save does not come once in a life time. It knocks at your door every day. The question is are you heeding it? Better do it now while you are still in your active years for there will come a time when age, infirmness, financial troubles or sickness will drown out the sound of opportunity's knock. Don't wait until then. Get busy today. Come in and get acquainted with us. Let us explain to you how, in a comparatively short time, you can place yourself in the realm of financial independence. Our advice is free and you are assured of courteous treatment.

### The Examination of the Eye

WE Render You Expert Service

The examination of the eye, to be complete, must take into consideration points far deeper than a mere test for vision.

We have the most scientific eye-testing instruments in the optical field today.

Our work combines that of the optometrist and optician. We prescribe, grind and fit our own glasses.
