HOW TO BE ALWAYS WELL BY THE USE OF SIMPLE WARM WATER

You can't be well unless clean internally—
For physicians agree that nearly all illness is traceable to the poisons of accumulated waste in the intestine.
Drugs have failed to correct this. But simple warm water, properly applied, cleanses the intestine thoroughly and successfully and keeps it free from all poisonous waste.
Over a million are now using this method, many of them right here in our City.
Ask us for an interesting little book "Why Man of Today is Only 50% Efficient." It tells you scientific facts about yourself that you have never known; also why internal cleanliness adds so much to your efficiency.
It is free to you; ask for it today while it is still on your mind.
